### TITLE 3—THE PRESIDENT EXECUTIVE ORDER 10625

FURTHER PROVIDING FOR THE ADMINISTRA-TION OF FOREIGN AID FUNCTIONS.

By virtue of the authority vested in me by the Mutual Security Act of 1954 (68 Stat. 832), as amended, by section 301 of title 3 of-the United States Code, and as President of the United States and Commander in Chief of the armed forces of the United States, it is ordered as follows:

SECTION 1. Executive Order No. 10575 of November 6, 1954, 19 F. R. 7249, as affected by Executive Order No. 10610 of May 9, 1955, 20 F. R. 3179, is hereby amended as follows:

(a) Section 102 (a) is amended by adding at the end thereof the following:

"(4) The functions conferred upon the President by section 124 of the Act, as amended. The determination of the value of the program for any country under that section shall be made by the Secretary of State.

"(5) The function conferred upon the President by the penultimate proviso of section 108 of the Mutual Security Appropriation Act, 1956."

(b) So much of section 106 as precedes subsection (a) (2) thereof is amended to read as follows:

"Sec. 106. Allocation of funds. (a) Funds heretofore or hereafter approprated or otherwise made available to the President shall be deemed to be allocated without any further action of the President, as follows:

"(1) There are allocated to the Secretary of Defense funds for carrying out chapter 1 of Title I of the Act, as amended, and, without regard to section 106 (a) (2) of this order, funds for carrying out section 124 of the Act, as amended; but, for the purposes of the second sentence of section 103 of the Mutual Security Appropriation Act, 1956, such funds shall be available only when and in such amounts as they have heen apportioned, for use, by the Bureau of the Budget,"

(c) Section 107 (a) is amended by adding at the end thereof the following:

"(6) The function conferred upon the President by the second sentence of section 124 of the Act, as amended."

(d) Subsection (b) of section 107 is amended to read as follows:

"(b) The sum of \$300,000,000 provided for in section 402 of the Act, as amended, shall be divided between the Department of State and the Departments of Defense as those departments shall mutually agree."

(e) Sections 101 (b), 102 (a) (2), 102 (a) (3) and 106 (b) are amended by striking therefrom "142 (11)", "142 (7)" "142 (10)" and "section 411 (b) of the Act" respectively, and inserting in lieu thereof "142 (b)", "142 (a) (7)", "142 (a) (10)" and "section 411 (c) of the Act, as amended," respectively.

SEC. 2. Except in respect of any provision which has been revoked, superseded, or otherwise rendered inapplicable, and except as may be otherwise mappropriate, any reference in any provision of any prior Executive order to the Mutual Security Act of 1954 shall be deemed to include a reference to the Mutual Security Act of 1954, as amended.

### TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B-Economic Regulations

[Reg. ER-205]

PART 234-TRANSPORTATION OF MAIL: PE-TITIONS FOR DETERMINATION OF RATES

### REVOCATION OF PART

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 29th day of July 1955.

Part 234 of the Economic Regulations sets forth current Board requirements concerning the filing and contents of mail rate petitions. This is basically a procedural regulation and much of the material contained therein duplicates, and some of it is in conflict with, the applicable provisions of the Board's rules of practice in Part 302. Proper regulatory practice requires that procedural details be set forth in the procedural rules, and the purpose of this regulation and the companion amend-ment to Part 302' is to effect such a result. Those portions of current Part 234 which are being retained are discussed in the preamble to the amendment to Part 302.

Since this amendment is not a substantive rule but one of agency practice and procedure, notice and public procedure hereon are unnecessary, and the amendment may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby repeals Part 234 of the Economic Regulations effective July 29, 1955.

Subchapter C-Procedural Regulations

[Reg. PR-25]

PART 302-RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

### INSTITUTION OF PROCEEDINGS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 29th day of July 1955.

By concurrent action, the Board has this date repealed Part 234 2 of the Economic Regulations because that part largely duplicated the applicable provisions of the rules of practice. The only unduplicated portions of Part 234 which the Board desires to retain are to be found in the repealed §§ 234.3 and 234.7. These sections affirmatively required that the Postmaster General be

served with copies of all mail rate petitions and amendments thereto. further provided a special method of serving such documents not otherwise provided for in the rules of practice.

Accordingly, the Board has concluded that it should amend § 302.303 of the Procedural Regulations which prescribes the procedures relating to the institution of mail rate proceedings.

Since this amendment is not a substantive rule but one of agency procedure, notice and public procedure hereon are unnecessary, and the amendment may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board amends Part 302 of the Procedural Regulations as follows effective July 29, 1955:

1. By amending § 302.303 to read as follows:

§ 302.303 Institution of proceedings. Proceedings for the determination of rates of compensation for the transportation of mail may be commenced by the filing of a petition by an air carrier whose rate is to be fixed, or the Postmaster General, or upon the issuance of an order by the Board.

(a) The petition shall set forth the rate or rates sought to be established, a statement that they are believed to be fair and reasonable, the reasons supporting the request for a change in rate, and a detailed economic justification sufficient to establish the reasonableness

of the rate or rates proposed.

(b) In any case where a carrier is operating under a final mail rate uniformly applicable to an entire ratemaking unit as established by the Board, a petition must clearly and unequivocally challenge the rate for such entire rate-making unit and not only a part of such unit. Unless such a petition clearly and unequivocally requests review of the rate for the entire ratemaking unit, it shall be dismissed. No amendment intended to cure the omission shall be given retroactive effect.

(c) All petitions, amended petitions, and documents relating thereto shall be served upon the Postmaster General by sending a copy to him by registered mail, postpaid, prior to the filing thereof with the Board. Proof of service on the Postmaster General shall consist of a statement in the document that the person filing it has served a copy on the Postmaster General as required by this section. The petition need not be accompanied by any further proof of service, but, upon setting any petition down for public hearing, the Board will cause notice of such hearing to be given to such interested persons as it deems appropriate in the particular case.

(Sec. 205, 52 Stat. 984, as amended; 49 U.S. C. Interprets or applies sec. 406, 52 Stat. 990; 49 U. S. C. 486)

By the Civil Aeronautics Board.

### PART 610-MINIMUM EN ROUTE IFR ALTITUDES

### MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 610 is amended as follows (listed items to be placed in appropriate sequence in the sections indicated)

### TITLE 25-INDIANS

Chapter I-Bureau of Indian Affairs, Department of the Interior

Subchapter L-Irrigation Projects; Operation and Maintenance

PART 130-OPERATION AND MAINTENANCE CHARGES

FLATHEAD INDIAN IRRIGATION PROJECT, MONTANA

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (Public Law 404, 79th Congress, 60 Stat. 238) and authority contained in the acts of Congress approved August 1, 1914; May 18, 1916; and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 39 Stat. 142; and 45 Stat. 210, 25 U. S. C. 387), and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs (Order No. 2508; 14 F R. 258), and by virtue of authority delegated by the Commissioner of Indian Affairs to the Area Director (Bureau Order No. 551, Amendment No. 1, 16 F R. 5454-7), notice is hereby given of the intention to modify §§ 130.24, 130.26, and 130.28 of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Flathead Indian Irrigation Project, Montana, that are subject to the jurisdiction of the several irrigation districts. There was published on June 29, 1955, in the daily issue of the Federal Register, notice of intention to modify §§ 130.24, 130.26, and 130.28

<sup>1 3,000&#</sup>x27;—Minimum reception altitude. 2 4,300'—Minimum reception altitude. 3 2,000'—Minimum terrain clearance altitude.

of the Title 25, Code of Federal Regulations, as follows:

Charges applicable to all irrigable lands of the Flathead Indian Irrigation Project that are included in the Irrigation District Organization and are subject to the jurisdiction of the three irrigation districts.

Interested persons were thereby given opportunity to participate in preparing the modification by submitting data or written arguments within 30 days from the publication of the notice. No obnectives were submitted. Accordingly, §§ 130.24, 130.26, and 130.28 are modified as follows:

§ 130.24 Charges. Pursuant to a contract executed by the Flathead Irrigation District, Flathead Indian Irrigation Project, Montana, on May 12, 1928, as supplemented and amended by later contracts dated February 27, 1929; contracts dated February 27, 1929; March 28, 1934; August 26, 1936 and April 5, 1950, there is hereby fixed for the season of 1956, an assessment of \$221,500 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Flathead Irrigation District. This assessment involves an area of approximately 68,840.2 acres; does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 130.26 Charges. Pursuant to a contract executed by the Mission Irrigation District, Flathead Indian Irrigation Project, Montana, on March 7, 1931, approved by the Secretary of the Interior on April 21, 1931, as supplemented and amended by later contracts dated June 2, 1934, June 6, 1936 and May 16, 1951, there is hereby fixed for the season of 1956, an assessment of \$45,000 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Mission Irrigation District. This assessment involves an area of approimately 13,704.3 acres; does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 130.28 Charges. Pursuant to a contract executed by the Jocko Valley Irrigation District, Flathead Indian Irrigation Project, Montana, on November 13, 1934, approved by the Secretary of the Interior on February 26, 1935, as supplemented and amended by later contracts dated August 26, 1936, and April 18, 1950, there is hereby fixed, for the season of 1956, an assessment of \$15,000 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Jocko Valley Irrigation District. This assessment involves an area of approximately 5,665.1 acres; does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

- (3) EST. Enlistment Screening Test. (4) AQE. Airman Qualifying Exam-
- ination. (5) ACB. Airman Classification Bat-
- tery. (6) Prior service. When used in reference to personnel, "prior service" will

include:

- (i) Former Regular airmen who have served a minimum continuous period exceeding 90 days, and who have been separated from the Air Force for a period of time exceeding 90 days.
- (ii) Former airmen of a Reserve component who have served in an active military service status for a minimum continuous period exceeding 90 days.
- (iii) Former enlistees and inductees of any of the Regular Armed Forces who have served in an active military cervice status for a minimum continuous period exceeding 90 days.
- (iv) Former enlisted members of a Reserve component of any of the other Armed Forces who have served in an active military service status for a minimum continuous period exceeding 90 days.
- (7) Reenlistment or reenlistee. When used in reference to personnel, "reenlistment" or "reenlistee" applies only

TITLE 32—NATIONAL DEFENSE to Regular airmen who enlist within 90 days from date of discharge from the Regular Air Force.

(8) Without prior sermee. All percons who are not included in the prior service or reenlistment category indicated in subparagraphs (6) and (7) of this paragraph.

(9) Original enlistment. Enlistment of a person who has never previously been an enlisted member of the Army Air Corps, Army Air Forces, or the United States Air Force.

(10) Dependent. Includes all persons actually dependent upon the applicant either from a moral or legal standpoint.

(11) Withm United States. Only within the 48 States and the District of Columbia.

(12) Use of terms "men." "male," "women," "jemale," "persons," "indicid-uals," and "applicants." Where instructions only apply to men, the word "men" or "male" is used. Where instructions apply only to women, the word "women" or "female" is used. Except when used in a section clearly applicable to only one sex, the word "persons," "individuals," and "applicants" refer to both men and women.

(13) USAF recruiting service. Recruiting activities under the jurisdiction of the 3500th USAF Recruiting Wing.

§ 871.2 Enlistment of men without prior service—(a) Places of enlistment— (1) Within United States. Within the United States, enlistments will be accomplished only through the USAF Recruiting Service.

(2) Within territories and possessions of United States. Within the territories and possessions of the United States, enlistments are authorized at Air Force bases, in accordance with special quota instructions issued by Headquarters USAF.

(3) Outside United States and its territories and possessions. Outside the United States and its territories and possessions, enlistments are not authorized.

(b) Qualifications for enlistment. Applicants must be qualified for enlistment in accordance with the following criteria (waivers of these qualifications are not authorized)

(1) Age. A person must be 17 to 34 years of age, inclusive.

(2) Citizenship. A person must be:

- (i) A citizen of the United States, or (ii) An alien who can present written evidence that he has made legal declaration of his intention to become a citizen of the United States. The evidence required is the triplicate of United States Department of Justice Immigration and Naturalization Service Form N-315, "Declaration of Intention," or Form N-321 or N-325 (in place of one lost, mutilated, or destroyed), duly authenticated by an authorized State or Federal District Court. 18 U. S. C. 1426 (h) prohibits the reproduction without lawful authority of a declaration of intention to become a citizen or certificate of naturalization. Under no circumstances will these forms be reproduced.
- (3) Mental. An applicant must obtain a:
- (i) Raw score of 15 or higher on the EST 1 or 2.

- (ii) Percentile score of 10 or higher on the AFQT 3 or 4.
- (4) Physical. The standards for medical examination will be those prescribed in current pertinent regulations. Applicants having a physical profile serial with numeral "3" (profile C) as the lowest grade in any factor may be accepted for enlistment.
- (5) Moral. Applicants for enlistment must be of good moral character. A person's moral character will be determined by ascertaining his reputation in the community in which he lives.
- (6) Men with prior military service. Men with prior military service but who by definition fall into the "without prior service" category will be required to meet the qualifications for enlistment and will be processed in the same manner as the "prior service" category of personnel as contained in § 871.3, except that they will be forwarded from recruiting main stations in accordance with paragraph (e) of this section.
- (c) Men ineligible for enlistment. In addition to applicants who do not meet the eligibility requirements for enlist-ment as established in this part, the persons listed in subparagraphs (i) through (iii) of this paragraph are not eligible to enlist. Request for waiver will not be submitted unless specifically authorized.

(1) Illiterates. Applicants must be able to read, write, and understand the English language sufficiently to assure that they can satisfactorily absorb the

required training.

(2) Persons with moral disqualification. Persons considered morally unacceptable will not be enlisted in the Air Force. Criteria for determining moral fitness of applicants for enlistment will be determined as follows:

(i) Persons convicted by civil court for an offense punishable by death or imprisonment for a term exceeding 1 year Persons convicted by civil court for an offense punishable by death or imprisonment for a term exceeding 1 year are morally unacceptable for enlistment.

(ii) Repeated offenders and persons with certain traits of character Persons having frequent difficulties with law enforcement agencies, criminal tendencies, a history of antisocial behavior. alcoholism, drug addiction, sexual perversity, or questionable moral character. which renders the person unfit to associate with members of the military service, are morally unacceptable.

(iii) Persons convicted by civil court for offense punishable by imprisonment for term not exceeding 1 year Persons convicted by a civil court for an offense punishable by imprisonment for a term not exceeding 1 year are morally unac-

ceptable except as provided in (a) or (b) of this subdivision.

- (a) Waivers of minor offenses may be authorized by USAF recruiting detachment commanders. These offenses will include minor traffic violations, single cases of drunkenness, vagrancy, truancy, peace disturbance, and similar offenses for which no type of civil restraint is imposed. Request for waiver will include the following:
- (1) Nature of offense for which convicted and a brief description of details surrounding commission of offense.

- (2) Date of offense.
- (3) Age of applicant at time of offense. (4) City and State in which offense was committed.
- (b) Waivers may be requested from Headquarters USAF for men who have been convicted by a civil court for an offense punishable by a term of imprisonment not exceeding 1 year. Request for waiver will not be submitted until after applicant has served the period of confinement, parole, or probation imposed by sentence of the court, plus a minimum period of 6 months as a law-abiding member of a civilian community. If applicant is convicted but not confined, paroled, or placed on probation, waiver will not be submitted for 6 months from date of conviction. However, the 6-month waiting period as a law-abiding member of a civilian community is not required for the submission of waivers when only minor offenses are involved. Request for waiver will include the following:
- (1) Nature of offense for which convicted and a brief description of the details surrounding commission of the offense.
- (2) A statement that the offense was punishable by a term of imprisonment not to exceed 1 year under the law under which tried.

(3) Date of offense.

- (4) Age of applicant at time of offense. (5) City and State in which offense was committed.
- (6) Date of trial and sentence imposed.
- (7) Date of release from confinement. if applicable, and/or date of unconditional release from parole, probation, or other form of supervision or restraint.
- (8) Recommendation of investigating officer or recruiter and any other information considered pertinent to the case that will provide a sound basis for rendering a decision.
- (9) Three letters of recommendation from reputable citizens other than relatives, such as persons in the educational field, local government officials, clergymen, or professional people (doctors and lawyers)
- (iv) Juvenile delinquency. An adjudication that a person is a juvenile delinquent, youthful offender, wayward minor, or equivalent determination by a court having jurisdiction over juvenile cases, is not in itself a disqualification for enlistment. However, persons with such adjudication against them may be morally unacceptable for enlistment. Prior to enlistment, all applicants will be asked if they have ever been in the custody of juvenile authorities or caused to appear before a court having jurisdiction over juvenile cases. If this is admitted by the applicant or suspected by recruiting personnel due to other information that may be available. processing personnel will immediately postpone enlistment pending an investigation to determine whether or not applicant is morally acceptable for enlistment. Investigations and waivers of juvenile delinquency will be in accordance with the following:
- (a) Information concerning the applicant will be obtained from juvenile authorities, juvenile courts, police rec-

- ords, detention homes, reformatories, or any other appropriate source. Information thus obtained wil not be classified, but will be treated as confidential and will not be revealed to any person other than those persons having an official interest in the case.
- (b) Waivers will not be granted to applicants who have, upon investigation, been found to have had frequent difficulties with law enforcement agencies, a history of antisocial behavior, sexual perversity, or questionable moral character which renders the person unfit to associate with members of the military service.
- (c) The following factors will be used when considering a case for waiver.

(1) Seriousness of offense.

(2) Number of offenses,

(3) Age of applicant at time of offense,

(4) Time elapsed since commission of offense and/or release from restraint, detention, or supervision by civil authorities.

(5) Present reputation in community in which residing.

(6) Work and/or school record since date of offense or release from restraint, detention, or supervision by civil authorities.

(7) Such other factors as may be considered pertinent to the case.

- (d) Waivers are not authorized when the applicant is in detention, under any other form of restraint, or under the supervision of civil authorities, and for a minimum period of 6 months as a lawabiding citizen of the civilian community after date of adjudication, or of release from such detention, restraint, or supervision, whichever occurs later. However, the 6-month waiting period as a law-abiding member of a civilian community is not required for submission of waivers when only minor offenses are involved.
- (e) Waivers of juvenile delinquency may be granted by USAF recruiting detachment commanders. If waiver is granted, a copy of the report of investigation on which waiver is predicated and waiver will be attached to the original and duplicate copies of DD Form 4. listment Record—United States." unusual instances, if a detachment commander does not feel qualified to make a decision, request for waiver may be sent to Headquarters USAF for final decision, Such requests will clearly indicate that a decision could not be reached at USAF recruiting detachment level. In the event civil authorities refuse to furnish complete information on the applicant's juvenile record, the enlistment will be held in abeyance and the applicant advised that the burden of obtaining and furnishing the information is upon him, Rejection for enlistment will be on the grounds that an evaluation of applicant's qualifications for enlistment cannot be made due to the refusal of civil authorities to reveal information pertaining to applicant's juvenile record.
- (3) Persons with criminal charges filed or pending against them. Persons who have criminal charges filed and pending against them, alleging a violation of State, Federal, or Territorial statute. In addition, persons who have criminal charges filed and pending

against them, alleging a violation of State, Federal, or Territorial statute but, who, as an alternative to further prosecution, indictment, trial, or incarceration for such violation, are granted a release from the charge by a court on the condition that they will apply and are accepted for enlistment.

(4) Parolees. Persons under parole, probation, or suspended sentence from

any civil court.

- (5) Intoxicated persons. Persons who are under the influence of alcohol or drugs will not be processed for enlistment\_
  - (6) Insane persons.
- (7) Persons who have venereal disease. Persons who have an active or chronic venereal disease.
- (8) Selective Service System registrants. Selective Service System registrants who have received their orders -to report for induction and those registrants classified 1-A (P)

(9) Persons with dependents. Persons who have two or more dependents.

- (10) Disloyal or subversive applicants. Applicants who admit or whose available records show that they have at any time engaged in disloyal or subversive activities. In addition, enlistment will be denied if such enlistment is not clearly consistent with the interests of national security.
- (11) Applicants who refuse to sign loyalty certificates. Applicants who refuse to sign DD Form 98, "Loyalty Certificate for Personnel of the Armed Forces," and applicants who claim Federal constitutional privilege for any reason.
- (d) Periods of enlistment and grades-(1) Periods of enlistment. Periods of enlistment are authorized for 4 or 6 years at the option of the person enlisting.
- (2) Grades. (i) Members of the Civil Air Patrol who possess a certificate of proficiency or a letter from Civil Air Patrol headquarters indicating that they have successfully completed the Civil Air Patrol training program and who are currently members of the Civil Air Patrol may be enlisted in grade of airman third class (E-2)
- (ii) Except as provided in subdivision (i) of this subparagraph, all enlistments will be accomplished in grade of basic airman (F-1)
- (e) Assignment. Enlistees will be ordered and assigned to the 3650th Military Training Wing, Sampson Air Force Base, Geneva, New York; to the 3700th Military Training Wing, Lackland Air Force Base, San Antonio, Texas; or to the 3275th Military Training Wing, Parks Air Force Base, Pleasanton, Califorma, in accordance with separate instructions issued by Headquarters USAF.
- § 871.3 Enlistment of men with prior service—(a) Places of enlistment—(1) United States. Within the Withm United States enlistments will be accomplished only through the United States Air Force Recruiting Service.
- (2) Within territories and possessions of the United States. Within the territories and possessions of the United States, enlistment of a bona fide territorial resident is authorized provided

that a vacancy exists. Enlistment may be accomplished at any Air Force installation having adequate facilities and personnel to accomplish the enlistment.

- (3) Outside United States and its territories and possessions. Outside the United States and its territories and possessions, enlistments are not authorized.
- (b) Qualifications for enlistment. Applicants must be qualified for enlistment in accordance with the following criteria (waivers or these qualifications are not authorized unless specifically indicated)

(1) Age:

(i) A person must be 17 to 34 years of

age, inclusive, or

(ii) A person may be enlisted if he is 35 to 54 years of age, inclusive, provided that age at time of enlistment is not greater than 35 plus the length of applicant's prior honorable active Federal service, and provided that at least 3 months of this service was in the Army Air Corps, Army Air Force, or the United

States Air Force.

(iii) Waivers of age requirements may be requested from the Director of Personnel Procurement and Training, Headquarters USAF, Attention: Personnel Procurement Division, Washington 25. D. C., if considered in the best interests of the Air Force and provided that applicant has had at least 3 months prior active service in the Army Air Corps, Army Air Force, or United States Air Force.

(2) Citizenship. An applicant who is otherwise qualified may be enlisted if the

applicant is:

- (i) A citizen of the United States, or (ii) An alien who can present written evidence that he has made legal declaration of his intention to become a citizen of the United States. The evidence required is the triplicate of United States Department of Justice Immigration and Naturalization Service Form N-315, or Form N-321 or N-325 (in place of one lost, mutilated, or destroyed), duly authenticated by an authorized State or Federal District Court. 18 U.S. C. 1426 (h) prohibits the reproduction without lawful authority of a declaration of intention to become a citizen or certificate of naturalization. Under no circumstances will these forms be reproduced.
- (3) Mental. (i) A score of 4 or higher must be achieved on technician specialty plus a score of 4 or higher on either the clerical or mechanical aptitude index of the AQE or ACB.
- (ii) Persons who do not have either an AQE or ACB score indicated on their report of separation or an AFQT percentile score of 21 or higher will undergo preliminary mental screening and must achieve a raw score of 21 or higher on the EST.
- (iii) Waiver of mental qualifications may be requested from the Director of Personnel Procurement and Training. Headquarters USAF, Attention: Personnel Procurement Division, Washington 25, D. C., in meritorious cases. Detailed reasons why the case is considered meritorious must be given when requesting waivers.
- (4) Physical. The standard for medical examination will be those prescribed in current pertinent regulations.

- (i) Applicants having a physical profile serial with numeral "3" (profile C) as the lowest grade in any factor may be accepted for enlistment, except as indicated in subdivision (ii) of this subparagraph.
- (ii) Persons last separated by reason of physical disability. Applicants for en-listment, who were last separated from any of the Armed Forces by reason of physical disability, with or without severance pay, will not be accepted for enlistment without prior approval from Headquarters USAF, even though such persons currently meet the physical standards prescribed in this subparagraph.

(5) Moral. Applicants for enlistment must be of good moral character. A person's moral character will be determined by ascertaining his reputation in the community in which he lives.

(c) Men meligible for enlistment. In addition to applicants who do not meet the eligibility requirements for enlistment, as established in this Part, the persons listed in subparagraphs (1) through (17) of this paragraph are not eligible to enlist. Request for waivers will not be submitted unless specifically author-

(1) Illiterates. Applicants must be able to read, write, and understand the English language sufficiently to assure that they can satisfactorily absorb the

required training.

(2) Persons with moral disqualification. For applicants with prior military service, only the offenses committed after date of separation under honorable conditions from last period of extended active duty are considered disqualifying. Persons considered morally unacceptable will not be enlisted in the Air Force. Moral fitness of applicants for enlistment will be determined as follows:

(i) Persons convicted by civil court for offense punishable by death or imprisonment for term exceeding 1 year. Percons convicted by a civil court for an offense punishable by death or imprisonment for a term exceeding 1 year are morally unacceptable for enlistment.

(ii) Repeated offenders and persons with certain traits of character. Persons having frequent difficulties with law enforcement agencies, criminal tendencies, a history of antisocial behavior, alcoholism, drug addiction, sexual perversity, or questionable moral character, which renders the person unfit to associate with members of the military service, are morally unacceptable.

(iii) Persons convicted by civil court for offense punishable by imprisonment for term not exceeding 1 year. Persons convicted by a civil court for an offense punishable by imprisonment for a term not exceeding 1 year are morally unacceptable, except as provided in (a) or (b) of this subdivision:

(a) Waivers of minor offenses may be authorized by USAF recruiting detachment commanders. These offenses will include minor traffic violations, single cases of drunkenness, vagrancy, truancy, peace disturbance, and similar offenses for which no type of civil restraint is imposed. Request for waiver will include the following:

- (1) Nature of offense for which convicted and a brief description of details surrounding commission of offense.
  - (2) Date of offense.
- (3) Age of applicant at time of offense.
- (4) City and State in which offense was committed.
- (b) Waivers may be requested for men who have been convicted by a civil court for an offense punishable by a term of imprisonment not exceeding 1 year. Request for waiver will not be submitted until after applicant has served the period of confinement, parole, or probation imposed by sentence of the court plus a minimum period of 6 months as a lawabiding citizen of a civilian community. If applicant is convicted but not confined, paroled, or placed on probation, waiver will not be submitted for 6 months from date of conviction. However, the 6 month waiting period as a law-abiding member of a civilian community is not required for the submission of waivers when only minor offenses are involved. Request for waiver will include the following:
- (1) Nature of offense for which convicted and a short description of the details surrounding commission of the offense.
- (2) A statement that the offense was punishable by a term of imprisonment not to exceed 1 year by the law under which tried.
  - (3) Date of offense.
- (4) Age of applicant at time of offense.
- (5) City and State in which offense was committed.
- (6) Date of trial and sentence imposed.
- (7) Date of release from confinement, if applicable, and/or date of unconditional release from parole, probation, or other form of supervision, or restraint.
- (8) Recommendation of investigating officer or recruiter and any other information considered pertinent to the case that will provide, a sound basis for rendering a decision.
- (9) Three letters of recommendation from reputable citizens.
- (iv) Juvenile delinquency. An adjudication that a person is a juvenile delinquent, youthful offender, wayward minor, or equivalent determination by a court having jurisdiction over juvenile cases, is not in itself a disqualification for enlistment. However, persons with such adjudication against them may be morally unacceptable for enlistment. Prior to enlistment, all applicants will be asked if they have ever been in the custody of juvenile authorities or caused to appear before a court having jurisdiction over juvenile cases. If this is admitted by the applicant, or suspected by recruiting personnel due to other information that may be available, the recruiting officer will immediately postpone enlistment pending an investigation to determine whether or not applicant is morally acceptable for enlistment. Investigation and waiver of juvenile delinquency will be in accordance with the following:
- (a) Information concerning the applicant will be obtained from juvenile authorities, juvenile courts, police rec-

- ords, detention homes, reformatories, or any other appropriate source. Information thus obtained will not be classified but will be treated as confidential and will not be revealed to any person other than those persons having an official interest in the case.
- (b) Waivers will not be granted to applicants who have, upon investigation, been found to have had frequent difficulties with law enforcement agencies, a history of antisocial behavior, sexual perversity, or questionable moral character which renders the person unfit to associate with members of the military service.
- (c) The following factors will be used when considering a case for waiver:
  - (1) Seriousness of offense.
- (2) Age of applicant at time of offense.
- (3) Time elapsed since commission of offense and/or release from restraint, detention, or supervision by civil authorities.
- (4) Present reputation in community in which residing.
- (5) Work and/or school record since date of offense or release from restraint, detention, or supervision by civil authorities.
- (6) Such other factors as may be considered pertinent to the case.
- (d) Waivers are not authorized when the applicant is in detention, under any other form of restraint, or under the supervision of civil authorities, and for a minimum period of 6 months as a lawabiding citizen of a civilian community after date of adjudication or of release from such detention, restraint, or supervision, whichever occurs later. However, the 6-month waiting period as a law-abiding member of a civilian community is not required for the submission of waivers when only-minor offenses are involved.
- (e) Waivers of juvenile delinquency may be granted by USAF recruiting detachment commanders. If waiver is granted, a copy of the report of investigation on which waiver is predicated and waiver will be attached to the original and duplicate copies of DD Form 4. In unusual instances, if a recruiting detachment commander does not feel qualified to make a decision, request for waiver may be sent to Headquarters USAF for final decision. Such requests will clearly indicate that a decision could not be reached at recruiting detachment level. In the event civil authorities refuse to furnish complete information on the applicant's juvenile record, the enlistment will be held in abeyance and the applicant advised that the burden of obtaining and furnishing the information is upon him. Rejection for enlistment will be on the grounds that an evaluation of applicant's qualifications for enlistment cannot be made due to the refusal of civil authorities to reveal information pertaining to applicant's juvenile record.
- (3) Persons with criminal charges filed or pending against them. Persons who have criminal charges filed and pending against them, alleging a violation of State, Federal, or Territorial statute. In addition, persons who have

- criminal charges filed and pending against them, alleging a violation of State, Federal, or Territorial statute but who, as an alternative to further prosecution, indictment, trial, or incarceration for such violation, are granted a release from the charge by a court on the condition that they will apply and are accepted for enlistment.
- (4) Parolees. Persons under parole, probation, or suspended sentence from any civil court.
- (5) Intoxicated persons. Persons who are under the influence of alcohol or drugs will not be processed for enlistment.
  - (6) Insane persons.
- (7) Persons who have venereal disease. Persons who have an active or chronic venereal disease.
- (8) Selective Service System registrants. Selective Service System registrants who have received their orders to report for induction and those registrants classified 1-A (P)
- (9) Persons with dependents. (1) Persons otherwise eligible to enlist in pay grade F-1, F-2, or F-3 who have two or more dependents.
- (ii) Persons otherwise eligible to enlist in pay grade E-4 who have three or more dependents, except that persons eligible to enlist in, pay grade E-4 who have 4 or more years' service for pay purposes may be enlisted without regard to number of dependents.
- (10) Disloyal or subversive applicants. Applicants who admit or whose available records show that they have at any time engaged in disloyal or subversive activities. In addition, enlistment will be denied if such enlistment is not clearly consistent with the interests of national security.
- (11) Applicants who refuse to sign loyalty certificates. Applicants who refuse to sign DD Form 98 and applicants who claim Federal constitutional privilege for any reason.
- (12) Persons with certain types of separation from last period of service. Applicants with prior service separated from their last period of service for unsuitability unfitness, disloyalty, or any of the many criteria for discharge contained in the current regulations of the several Armed Forces except:
- (i) Restored Air Force prisoners, restored under the Air Force restoration policy may be enlisted without regard to type or condition of the discharge. See § 871.6 (e)
- See § 871.6 (e)

  (ii) Former airmen whose report of separation contains the notation, "The Secretary of the Air Force considers that the type and nature of this discharge is not a bar to reenlistment in the Regular Air Force provided otherwise qualified," may be enlisted without regard to type or condition of discharge. However, they must be otherwise fully qualified for enlistment in all other respects such as time lost, dependency restrictions, grade in which last separated, and so forth.
- (iii) Applicants last discharged from any of the Armed Forces by reason of dependency or hardship are not eligible to enlist, except as follows:
- (a) Air Force recruiting detachment commanders may approve waivers for

enlistment of persons last separated by reason of dependency or hardship provided that 1 year has elapsed since date of last discharge and the cause for discharge no longer exists. The following procedure will apply.

- (1) A signed statement in duplicate will be submitted by applicant for enlistment. The statement will be in two parts. The first part will give the detailed reasons why discharge was obtained. The second part will give in detail the reasons why the conditions no longer exist.
- (2) In addition to the statement from the applicant, proof that dependency or hardship no longer exists will be furnished in the form of affidavits or sworn statements in duplicate executed by the person or persons on whose behalf the discharge was obtained or from another member of the community who is thoroughly familiar with the home conditions of the applicant's family. The burden of proof rests with the applicant for enlistment. The facilities of the Selective Service System or the American Red Cross will not be used to obtain this information.
- (b) Requests for waivers for the enlistment of persons last separated by reason of dependency or hardship may be submitted to Headquarters USAF when the applicant has been separated for a period less than 1 year.
- (iv) Persons who were last separated from military service by a discharge and/or condition of separation which is a bar to enlistment, and where waivers are not authorized, may be advised of the procedure for review of discharge, when appropriate. Favorable action by the discharge review board may make the applicant eligible for enlistment, if otherwise qualified.
- (13) Applicants who claim prior honorable service but unable to produce written evidence of last active service. Applicants who claim prior honorable service in the Armed Forces but who are unable to produce their report of separation or other written evidence of last active service will not be enlisted until verification of such service is obtained.
- (14) Retired personnel. Persons who are in a retired status for disability or length of service.
- (15) Persons receiving retired or retainer pay. Persons receiving retired or retainer pay from any of the Armed Forces.
- (16) Persons separated in pay grade E-1 or E-2. Persons who were last separated from any of the Armed Forces in pay grade E-1 or E-2 are not eligible except as provided in subdivisions (i) through (iii) of this subparagraph:
- (i) Persons who were separated from any of the Armed Forces prior to completing 18 months of service during last enlistment.
- (ii) Waivers may be requested from Headquarters USAF for persons in a civilian status provided that:
- (a) Applicant is not an airman separated from the Air Force on or after 15 September 1953.
- (b) Applicant has a meritorious case and commander submitting request for waiver must fully substantiate the re-

is based.

(iii) The provisions of subdivisions (i) and (ii) of this subparagraph apply to Reserves of the Air Force separated upon completion of 12 months or more of continuous active military duty.

(17) Applicants with time lost. plicants who have 30 days or more time lost under AW 107 or section 6 (a), app. 2b, MCM, 1951, or have time lost under similar circumstances in the Navy, Marine Corps, or Coast Guard. Waivers may be requested from Headquarters USAF.

- (d) Periods of enlistment and grades—(1) Periods of enlistment. Periods of enlistment are authorized for 4 or 6 years at the option of the person enlisting.
- (2) Grade in which enlisted. Applicants are enlisted in the permanent grade to which they are authorized. Persons authorized a higher temporary grade will be promoted to that grade at the time and place of enlistment.

(i) All enlistments will be accomplished in the grade of basic airman, E-1, unless applicant is authorized a higher grade under this Part.

(ii) Applicants who have had 3 months or more of active service in any of the Armed Forces, who are not eligible to enlist in a higher grade under this Part may be enlisted in the grade of airman third class, E-2, provided that they were last separated in pay grade E-2 or higher.

(3) Grades authorized for persons whose last period of service was in Regular Air Force. (i) Except as provided in subdivision (iii) of this subparagraph, Regular airmen who enlist after 90 days and within 12 months from date of separation may be enlisted one grade lower than the permanent grade held at time of separation. Concurrently, they may be promoted to a grade which is one grade lower than the temporary grade held at time of separation. If this procedure results in a promotion to pay grade E-4 or lower, enlistment will be in the higher grade instead of promotion.

(ii) Except as provided in subdivision (iii) of this subparagraph, Regular airmen who enlist after 12 months and within 24 months from date of separation may be enlisted two grades lower than the permanent grade held at time of separation. Concurrently, they may be promoted to a grade which is two grades lower than the temporary grade held at time of separation. If this procedure results in a promotion to the pay grade E-4 or lower, enlistment will be in the higher authorized grade instead of

(iii) Airmen last discharged under paragraph 5, AR 615-367, September 13, 1948, or paragraph 5, AFR 39-15, will not be enlisted in a grade higher than airman third class, E-2.

(4) Grades authorized for persons whose last period of service was in Regular Army, Regular Navy, Regular Coast Guard, or Regular Marine Corps (Including Inductees) (i) Except as provided in subdivisions (iii) and (iv) of this subparagraph, applicants whose last period of service was in the Regular

quest with facts upon which the request Army, Regular Navy, Regular Coast Guard, or Regular Marine Corps (including inductees) who were separated in permanent or temporary pay grade E-5, E-6, or E-7 who enlist within 12 months of date of separation, may be enlisted in the grade of airman first class, E-4. Those persons separated in pay grade E-4 who enlist within 12 months of the date of separation may be enlisted in the grade of airman second class, E-3.

(ii) Except as provided in subdivision (iv) of this subparagraph, applicants whose last period of service was in any of the Regular Armed Forces indicated in subdivision (i) of this subparagraph, separated in permanent or temporary pay grade E-5, E-6, or E-7, who enlist after 12 months and within 24 months from date of separation may be enlisted in the grade of airman second class, E-3.

(iii) Except as provided in subdivision (iv) of this subparagraph, applicants whose last period of service was in any of the Armed Forces indicated in subdivision (i) of this subparagraph, may be authorized a grade in the Regular Air Force, provided that they were separated in pay grade E-5, E-6, or E-7, and they can furnish official proof that, at the time of discharge, they held a primary Army or Marine Corps MOS/SSN or a Navy or Coast Guard title and code. The grade will be determined as follows:

(a) Applicants who enlist in the Air Force within 90 days of the date of their discharge may be enlisted in the grade of airman first class, E-4, and be promoted (temporary) at the time and place of enlistment to the permanent or temporary grade held at time of discharge, except that promotion will not authorized to a grade higher than the grade indicated for the applicable AFSC.

(b) Applicants who enlist after 90 days and before 12 months from date of discharge may be enlisted in the grade of airman first class, E-4, and promoted (temporary) to a grade one grade lower than the permanent or temporary grade held at time of discharge, except that promotion will not be authorized to a grade higher than the grade indicated for the applicable AFSC.

- (8) Persons with dependents. Persons eligible to enlist in pay grade E-1, E-2, or E-3 who have two or more dependents. Persons eligible to enlist in pay grade E-4 who have three or more dependents, except that persons eligible to enlist in pay grade E-4 who have 7 or more years' service for pay purposes may be enlisted without regard to number of dependents.
- (9) Persons with minor dependents.
  (i) Women who are parents by birth or adoption of a child under 18 years of age of whom they have personal or legal custody.
- (ii) Women who are stepparents of a child under 18 years of age and if the child is within their household for a period of more than 30 days a year.
- (iii) Women who have personal custody of any child under 18 years of age.
   (iv) Women who have had an illegiti-

mate pregnancy.

- (10) Disloyal or subversive applicants. Applicants who admit or whose available records show that they have at any time engaged in disloyal or subversive activities. In addition, enlistment will be denied if such enlistment is not clearly consistent with the interests of national security.
- (11) Applicants who refuse to sign loyalty certificates. Applicants who refuse to sign DD Form 98, and applicants who claim Federal constitutional privilege for any reason.
- (12) Persons with certain types of separation from last period of service.
  (i) Applicants with prior service and reenlistees separated from their last period of service for unsuitability, unfitness, disloyalty, or any of the many

criteria for discharge contained in the current regulations of the several Armed Forces.

- (ii) Applicants separated from any of the Armed Forces with other than an honorable discharge are not eligible to enlist.
- (iii) Applicants last discharged from any of the Armed Forces by reason of dependency or hardship are not eligible to enlist except as follows:
- (a) USAF-recruiting detachment commanders may approve waivers for enlistment of persons last separated by reason of dependency or hardship provided that 1 year has elapsed since date of last discharge and the cause for discharge no longer exists. Proof that dependency or hardship no longer exists will be furmshed in the form of affidavits or sworn statements in duplicate executed by the person or persons on whose behalf the discharge was obtained or from another member of the community who is thoroughly familiar with the home conditions of the applicant's family. The burden of proof rests with the applicant for enlistment. The facilities of the Selective Service System or the American Red Cross will not be used to obtain this information.
- (b) Requests for waivers for the enlistment of persons last separated by reason of dependency or hardsing may be submitted to Headquarters USAF when the applicant has been separated for a period less than 1 year.
- (c) Persons who were last separated from military service by a discharge and/or condition of separation which is a bar to enlistment, and where waivers are not authorized, may be advised of the procedure for review of discharge, when appropriate. Favorable action by the discharge review board may make the applicant eligible for enlistment, if otherwise qualified.
- (13) Persons who claim prior honorable service but unable to produce written evidence of last active service. Applicants who claim prior honorable service in the Armed Forces but who are unable to produce their report of separation or other written evidence of last active service, will not be enlisted until verification of such service is obtained.
- (14) Retired personnel. Persons who are in a retired status for disability or length of service.
- (15) Persons receiving retired or retainer pay. Persons receiving retired or retainer pay from any of the Armed Forces.
- (16) Persons separated in pay grade E-1 or E-2. Persons who were last separated from any of the Armed Forces in pay grade E-1 or E-2 are not eligible, except as provided in subdivision (i) through (iy) of this subparagraph.
- (i) Airmen currently serving may be granted a waiver for enlistment by air base commander at time of discharge.
- (ii) These provisions apply to Reserves of the Air Force separated upon completion of 12 months or more continuous tour of active military duty.
- (iii) Persons who were separated from any of the Armed Forces prior to completing 18 months of service during last enlistment.

- (iv) Waivers may be requested from Headquarters USAF for persons in a civilian status: *Provided*, That:
- (a) Applicant was not an airman separated from the Air Force on or after September 15, 1953.
- (b) Applicant must have a meritorious case and commander submitting request for waiver must fully substantiate the request with facts upon which the request is based.
- (17) Applicants with time lost. Applicants who have over 5 days lost under AW 107 or section 6 (a), app. 2b, MCM, 1951, or have time lost under similar circumstances in the Navy, Marine Corps, or Coast Guard, will not be enlisted. Waivers of time lost for prior service personnel and reenlistees may be requested from Headquarters USAF. Waivers for the purpose of reenlistment for airmen currently serving, may be requested from air base commander.
- (18) Married applicants without prior service. Married applicants without prior service.
- (19) Applicants found unsuitable for military service. Applicants found unsuitable for military service as a result of personal interview during enlistment processing.
- (20) Applicants with prior service. Applicants with prior service in any of the other Armed Forces, and WAF separated prior to January 1, 1950, will not be enlisted without prior approval of Headquarters USAF.
- (d) Periods of enlistment and reenlistment and grades. Periods of enlistment and reenlistment are for 3, 4, and 6 years at the option of the person enlisting.
- (e) Grade and date of rank at time of enlistment—(1) Grade in which enlisted. Applicants are enlisted in the permanent grade to which they are authorized. Persons authorized a higher temporary grade will be promoted to that grade at the time and place of enlistment.
- (i) All enlistments will be accomplished in the grade of basic airman, E-1, unless applicant is authorized a higher grade under this part.
- (ii) Applicants who have had 3 months or more service in any of the Armed Forces who are not eligible to enlist in a higher grade under this part, may be enlisted in the grade of airman third class, E-2, provided that they were last separated in pay grade E-2 or higher.
- (2) Applicants without prior service—
  (i) Grade. (a) Members of the Civil Air Patrol who possess a certificate of proficiency or a letter from Civil Air Patrol headquarters indicating that they have successfully completed the Civil Air Patrol training program and who are currently members of the Civil Air Patrol may be enlisted in the grade of airman third class, F-2.
- (b) Except as provided in (a) of this subdivision, all enlistments will be accomplished in the grade of basic airman, E-1.
- (ii) Date of rank. Date of rank will be the date of enlistment.
- (3) Applicants with prior service. (1) Grades authorized for persons whose last period of service was in Regular Air Force.

(a) Except as provided in (c) of this subdivision, Regular airmen who enlist after 3 months and within 12 months from date of separation may be enlisted one grade lower than the permanent grade held at time of separation. Concurrently, they may be promoted to a grade which is one grade lower than the temporary grade held at time of separation. If this procedure results in a promotion to the grade airman first class, E-4, or lower, enlistment will be in the higher grade instead of promotion.

(b) Except as provided in (c) of this subdivision, Regular airmen who enlist after 12 months and within 24 months from date of separation may be enlisted two grades lower than the permanent grade held at time of separation. Concurrently, they may be promoted to a grade which is two grades lower than the temporary grade held at time of separation. If this procedure results in a promotion to the grade of airman first class, E-4, or lower, enlistment will be in the higher grade instead of promotion.

(c) Airmen last discharged under paragraph 5, AR 615-367, September 13, 1948, or paragraph 5, AFR 39-15 (Discharge by Resignation) will be enlisted m the grade of airman third class, E-2.

- (ii) Grades authorized for persons whose last period of service was in Regular Army, Regular Navy, Regular Coast Guard, or Regular Marine Corps. Except as provided in (c) and (d) of this subdivision, applicants separated from the Regular Army, Regular Navy, Regular Coast Guard, or Regular Marine Corps in permanent or temporary pay grade E-5, E-6, or E-7, who enlist within 12 months of date of separation may be enlisted in the grade of airman first class, E-4. Those persons separated in pay grade E-4 who enlist within 12 months of date of separation may be enlisted in the grade of airman second class, E-3.
- (b) Except as provided in (d) of this subdivision, applicants whose last period of service was in any of the Regular Armed Forces indicated in (a) of this subdivision, separated in permanent or temporary pay grade E-5, E-6, or E-7, who enlist after 12 months and within 24 months from date of separation may be enlisted in the grade of airman second class, E-3.
- (c) Except as provided in (d) of this subdivision, applicants whose last period of service was in any of the Armed Forces indicated in (a) of this subdivision, may be authorized a grade in the Regular Air Force, provided that they were separated in pay grade E-5, E-6, or E-7, and they can furnish official proof that, at the time of discharge, they held a primary Army or Marine Corps MOS/ SSN or a Navy or Coast Guard title and code. The grade will be determined as follows:
- (1) Applicants who enlist in the Air Force within 90 days of the date of their discharge may be enlisted in the grade of airman first class, E-4, and be promoted (temporary) at the time and place of enlistment to the permanent or temporary grade held at time of discharge. except that promotions will not be au-

thorized to a grade higher than the grade for the applicable AFSC.

(2) Applicants who enlist after 90 days and within 12 months from date of discharge may be enlisted in the grade of airman first class, E-4, and promoted (temporary) to a grade one grade lower than the permanent or temporary grade held at time of discharge, except that promotion will not be authorized to a grade higher than the grade for the applicable AFSC.

(d) Former Army personnel last discharged under paragraph 5, AR 615-367. September 13, 1948, will be enlisted in the grade of airman third class, E-2.

(iii) Date of rank. The date of rank for persons enlisted under this section will be the date of enlistment.

- (f) Reenlistment. Except as indicated in subparagraphs (1) through (3) of this paragraph, reenlistment will be accomplished in the permanent grade held at time of discharge with concurrent promotion (temporary) to any higher temporary grade held at time of discharge. Promotion will be accom-plished on the date and at the place of reenlistment.
- (1) Except as provided in subparagraph (2) of this paragraph, former airmen discharged by reason of resignation under paragraph 4, AFR 39-15, prior to the completion of 6 years' service in their unspecified term of enlistment will be enlisted one grade lower than the permanent grade held at time of discharge. Those holding higher temporary grades may be promoted (temporary) to a grade one grade lower than that held at time of discharge.
- (2) Former airmen discharged by reason of resignation under paragraph 4, AFR 39-15, who have completed over 4 years' service in their unspecified term of enlistment will be reenlisted in the permanent grade held at time of discharge with concurrent promotion (temporary) to any other higher temporary grade held at time of discharge, provided that they reenlist for their own vacancy.
- (3) Former airmen discharged under paragraph 5, AFR 39-15, will be enlisted in the grade of airman third class, E-2. The date of rank will be the date of enlistment.
- § 871.6 Enlistment of specific categories of personnel—(a) Enlistment of Reserves of the Air Force on extended active military service. Reserves of the Air Force who have served a minimum continuous period of 12 months or longer on extended active military service may be enlisted in the Regular Air Force in accordance with the following instructions:
- (1) Qualifications. Applicants must be qualified for enlistment under this Part the same as persons with prior service.
- (2) Place of enlistment and initial assignment. Enlistment must be accomplished by base recruiting officer of the base having custody of airman's records. Enlistment will be made without a break in service. Initial assignment will be the same as held by enlistee when in extended active service status. Enlistment may be made without regard to vacancy.

- (3) Processing. Processing will be the same as that conducted at Air Force bases for reenlistees.
- (4) Grade authorized for enlistment. Grade authorized for enlistment will be determined by the air base commander concerned. The procedure of screening and grade determination will be left to the discretion of air base commanders. However, procedures used will assure that applicants are fully qualified for grade authorized. The following will apply in making grade determination:

(i) The grade authorized for enlistment will not be higher than one consistent with the grade held by other airmen assigned to the base with similar qualifications with regard to efficiency, length of active military service, and so

forth.

(ii) Airmen will not be enlisted in a grade higher than the grade in which currently serving.

(iii) Concurrent with enlistment in a permanent grade, airmen may be promoted to a temporary grade not higher than the permanent or temporary grade in which currently serving.

(5) Date of rank. (i) Date of permanent rank in which enlisted will be the date of rank awarded at time of order to active duty.

(ii) The date of temporary rank will be the date of original promotion to that grade.

(6) Periods of enlistment. (i) Men may be enlisted for 4 or 6 years at the option of the person enlisting.

(ii) Women may be enlisted for 3, 4, or 6 years at the option of the person enlisting.

- (b) Enlistment of Reservists of Armed Forces not on active military service. The integrity of troop program units of the Reserve Forces will be preserved insofar as practicable. Members of the Reserve Forces will not be actively solicited to enlist in the Air Force. However, upon request, members of the Reserve Forces who are not in an active military service status, will be given all the information they desire concerning enlistment in the Regular Air Force. Reserve officers of the other Armed Forces will be informed that upon enlistment in the Regular Air Force they may be subject to losing their Reserve commission. Reserve commissions cannot be "transferred" from one Armed Force to another.
- (1) Enlistment of persons with Air or Army National Guard status. (i) Prior to enlisting an applicant with an Air or Army National Guard status, DD Form 368, "Request for Discharge or Clearance from Reserve Component," will be forwarded to the applicant's company or similar unit commander. Enlistment will not be accomplished until the necessary clearance has been returned except:

(a) If a National Guard unit commander fails to reply to the request within 3 weeks of the date of mailing of the DD Form 368, such clearance will be assumed to have been given and enlist-

ment may be accomplished.

(b) An applicant who is a bona fide volunteer and whose unit commander disapproves a request for clearance, except where the clearance was denied be-

cause of disciplinary action or pecuniary liability to the State, may be enlisted. Prior to the enlistment of a person in this category, an effort will be made by the recruiting station commander to overcome the objection of the National Guard unit commander concerned.

(ii) Upon enlistment, the recruiting main station commander will forward a completed DD Form 368 to the appropriate State Adjutant General of the National Guard, requesting that the enlistee be discharged from his National Guard status.

(iii) Upon rejection of an applicant, the appropriate State Adjutant General will be so informed, in writing, giving

the reason therefor.

- (2) Enlistment of persons with Reserve status. A bona fide volunteer for enlistment who is an enlisted or commissioned member of the Air Force Reserve, Army Reserve, Navy Reserve, Marine Corps Reserve, or Coast Guard Reserve not in an active military service status may be enlisted without obtaining prior discharge or clearance from these Reserve components.
- (3) Enlistment of special category non-prior service Air Force Reserve personnel. Non-prior service members of the Air Force Reserve who present an authenticated letter from the com-mander of a Reserve training center will be processed and meet eligibility requirements in the same manner as other persons without prior service, except as provided below.
- (i) Persons holding pay grade E-2 or higher in the Air Force Reserve will be enlisted in pay grade E-2.
- (ii) Applicants who have previously been given a mental test by an Armed Forces Examining Station to enlist as a Reserve of the Air Force will not require retesting provided that official information is available indicating the test score achieved.
- (iii) These applicants will be given preferential treatment in processing and will be forwarded ahead of all other applicants from USAF recruiting stations to recruiting main stations and from recruiting main stations to military training wings. Shipments and enlistments will be accomplished within quotas, if possible, however shipments and enlistment will be accomplished without delay even though overshipment is necessary.
- (iv) Applicants who have a certificate indicating completion of the basic training course will be advised to present this certificate to processing personnel at the military training wing. Persons having this certificate will not be required to retake basic training but will be placed in a refresher training course and will then be assigned to a technical training school or to an Air Force base for onthe-job training.
- (c) Enlistment of persons qualified for aviation cadet training—(1) General-(i) Procurement procedures. The qualification and procurement procedures of applicants for aviation cadet training are given in §§ 874.1 to 874.13 of this subchapter.
- (ii) Applicants within the Air Force. Airmen of the Regular Air Force and

members of the Air Force Reserve or Air National Guard of the United States on active military service will be processed and appointed in accordance with: current pertinent regulations.

(iii) Civilian applicants and members of Reserve Forces not on active military service. Letters of selection are issued to applicants found "fully qualified" for training by.

(a) Chief of Staff, USAF
(b) Commander, Air Training Command.

(c) Commander, Flying Training Air Force.

When a "fully qualified" applicant has been selected for assignment to a specific flying training class, enlistment and shipping instructions will be contained in a letter or telegram to the applicant. A fully qualified applicant may enlist prior to his selection and assignment to a training class. These airmen are retained within the Air Training Command and will not be assigned to an oversea base or to a technical school. All fully qualified applicants enlisting who have not been selected for assignment to a flying training class will be assigned and forwarded to the 3700th Military Training Wing, Lackland Air Force Base, San Antonio, Texas.

(iv) Determination of eligibility. Applicants possessing evidence that they have been determined "fully qualified" will have been screened regarding eligibility and qualifications. Interview by the enlisting officer will be to assure that

the applicant:

(a) Has not reached his 27th birthday.

(b) Is single. 40,

- (d) Enlistment of Air Force ROTC graduates. Air Force ROTC graduates who possess a USAF Reserve Officers' Training Corps certificate of completion, authenticated by a professor of air science and who is enlisted within 2 years from date indicated on the certificate of completion, will be processed and enlisted in the same manner as prescribed for other persons without prior service excepte

active military service. Request will be submitted to Headquarters USAF and should include a copy of officer's DD Form 214 and must include the officer's full name, service number, and authority for separation. Officers authorized a pay grade of E-4 or higher under subparagraph (4) of this paragraph will not submit a request for higher grade.

(ii) Processing, eligibility requirements, and period of enlistment. Former Air Force officers who enlist within 90 days from date of separation will be processed, will be required to meet the same eligibility requirements, and will be enlisted for a period of enlistment the same as reenlistees. Those enlisted after 90 days from date of separation will be processed, will be required to meet the same eligibility requirements and will be enlisted for a period of enlistment the same as persons with prior service.

(iii) Date of rank. The date of rank for grades authorized under this subparagraph will be the date of enlistment.

- (g) Enlistment of officers and warrant officers for purpose of retirement—(1) Persons in continental United States. Persons being relieved from active duty in the continental United States for the purpose of immediate enlistment and retirement will be enlisted, assigned, processed, and retired at the Air Force installation at which separation as an officer or warrant officer is accomplished.
- (2) Persons returning from oversea major air commands. Persons who are returned from oversea major air commands for the purpose of enlistment and retirement will be separated from officer or warrant officer status, enlisted, processed, and retired at the personnel center or similar activity serving the port of arrival. Persons accompanied by dependents for whom accommodations are not available at the post of arrival may be assigned by a permanent change of station to an Air Force unit in the United States near the place where the person intends to make his home, provided that such Air Force installation has facilities for separation of military personnel.
- (h) Enlistment of airmen removed from Temporary Disability Retired List. (1) Former airmen who have been removed (discharged) from the Temporary Disability Retired List as physically fit and who enlist within 90 days from date of discharge, will be processed the same as reenlistees. Grade and date of rank authorized for enlistment will be contained in a letter from Headquarters USAF to the person concerned. Enlistment may be accomplished through the USAF Recruiting Service or any Air Force installation.
- (2) Former airmen who have been removed (discharged) from the Temporary Disability Retired List as physically fit who do not enlist within 90 days of discharge from the list will be processed the same as persons with prior service. Enlistments will be accomplished through the USAF Recruiting Service.
- (3) Former airmen who have been removed (discharged) from the Temporary Disability Retired List, not physically fit (less than 30 percent disability), and given severance pay, will be processed in the same manner as other persons last separated from military service because of physical disability.

- § 871.7 Miscellaneous instructions—
  (a) Retention of accepted applicants at Government expense. Applicants who have signified their intention to enlist may be retained at Government expense for such reasonable time as may be necessary to make appropriate disposition of their cases at recruiting stations or Air Force installations. The period of retention at Government expense will not exceed 7 days without special authority from the Chief of Staff, USAF
- (b) Transportation and subsistence—
  (1) General. Applicants for enlistment will be furnished transportation and meal tickets, if available, for travel from the place where these applicants make application for enlistment, or from their homes to the place of physical examination and/or place of acceptance for enlistment, including return travel in the event the applicant is rejected or returns home to await further orders. Transportation requests and meal tickets will be provided in accordance with current pertinent regulations.
- (2) Rejected applicants. Return transportation and subsistence from the recruiting main stations to point of mitial acceptance will be furnished in accordance with existing regulations to rejected applicants and to those acceptable applicants who cannot be enlisted due to quota or other administrative restrictions. Return transportation will not be furnished an applicant who concealed disqualification and, as a result, was later rejected as an applicant for enlistment.
- (3) Applicants discharged for physical disability. Government transportation and meals or meal tickets will not be furnished from recruiting station, recruiting main station, or other place of physical examination for applicants who have been discharged from last active service by reason of physical disability. Such applicants desiring enlistment will be informed that they must defray their own expenses in connection with travel for physical examination.
- (4) Applicant declining or failing to enlist. An applicant for enlistment who received transportation, lodging, subsistence, or monetary allowance in place thereof at Government expense or who is responsible for loss or destruction of Government property and then declines or fails to enlist will be requested to refund the costs involved.

### TITLE 47—TELECOMMUNI-CATION

Chapter I—Federal Communications
Commission

[Docket No. 11391; FCC 55-850]

[Rules Amdt. 3–54]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

1. The Commission has under consideration its Notice of Proposed Rule Mak-

ing issued on May 13, 1955 (FCC 55–560), and published in the Federal Register on May 19, 1955 (20 F. R. 3514) proposing to assign Channel 6 to Hayes Center, Nebraska, in response to a petition filed by Bi-States Company, permittee of television Station KHOL-TV operating on Channel 13 at Kearney, Nebraska.

2. The time for filing comments in this proceeding expired June 15, 1955. No comments opposing the proposed amendment have been filed. Bi-States Company filed comments in support of its

proposal.

- 3. In support of the requested amendment, petitioner urges that southwestern Nebraska is now without any television service; that the people in the area are anxious to obtain service; and that the proposed assignment to Hayes Center would comply with the Commission's Rules.
- 4. The Commission finds that amendment of the table, as proposed, meets the requirements of the Rules and would be in the public interest.
- 5. Authority for the adoption of the proposed amendment is contained in sections 4 (i) 301, 303 (c), (d) (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.
- 6. In view of the foregoing: It is ordered, That effective September 1, 1955, the Table of Assignments contained in \$3.606 of the Commission's Rules and Regulations is amended, insofar as the city named is concerned, as follows:

[Docket No. 11311; FCC 55-827] [Rules Amdt. 9-12]

PART 9—AVIATION SERVICES
MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 9 of the Commission's rules governing aviation services, to include frequencies for the Aeronautical Mobile (R) Service in the exclusive bands between 2850 kc and 27,500 kc; Docket No. 11311, Rules Amdt. 9-12.

1. On March 23, 1955, the Commission adopted a notice of proposed rule making in the above-entitled matter in order to implement that portion of the agreement concluded at the Extraordinary Administrative Radio Conference (Geneva 1951) which made certain frequencies in the bands between 2850 and

27,500 ke available for assignment to aircraft and aeronautical enroute stations.

- 2. The notice, in accordance with the requirement of Section 4 (a) of the Administrative Procedure Act, made provision for the submission of written comments by interested parties. The notice was duly published in the Federal Register on March 30, 1955 (20 F. R. 1992), and the period for filing comments has expired.
- 3. Comments were received from Aeronautical Radio Inc. (ARINC) and the Civil Aeronautics Administration (CAA) Arinc supports the proposed amendment to Part 9 in its entirety. The CAA offers no objection to listing the aeronautical mobile (R) frequencies in Part 9, but requests the Commission to verify certain agreements negotiated through the IRAC-FCC mechanism and to make certain modifications to the sections of the rules governing the availability of the aeronautical mobile (R) frequencies to aircraft radio stations.
- 4. Reply comments of Aeronautical Radio, Inc., to comments of the Civil Aeronautics Administration were duly filed. Arinc objected to certain of the comments filed by CAA "on the grounds that they were not competent or germane to the basis and purpose of the instant rule making proceeding and are lacking in substance or merit."
- 5. The CAA comments in substance, together with the action on each, are as follows:

(a) Verify that the agreements negotiated through the IRAC-FCC mechanism and reflected in plans developed in Ad Hoc Committee 8 (Report #4) are not abrogated or otherwise affected by the proposed revision.

The Ad Hoc 8 Report #4 was prepared in response to a request from the FCC/IRAC for a replacement list for out-of-band aeronautical mobile frequencies to be used as a guide to assist in the implementation of the. EARC Agreement. This implementation is now virtually completed in the aeronautical mobile services licensed by the Commission. Within the terms of its intended purpose, the Ad Hoc 8 Report #4 has been considered by the Commission in the preparation of this rule making and appropriate provisions of the EARC Agreement will be considered in connection with the assignment of specific frequencies.

(b) Verify that the indicated geographical areas of availability of frequencies in accordance with § 9.437 (international frequencies) are consistent with the pertinent international agreements and operational plans to which the United States is committed through the International Civil Aviation Organization.

Excepting the typographical error in § 9.437 (f) wherein Europe is designated as (E) in lieu of (EU) the geographical areas specified in § 9.437 are consistent with the geographical areas specified in the EARC Agreement. Further, § 9.432 makes adequate provisions to implement any plan, consistent with the EARC Agreement, to which the U. S. is committed through the ICAO.

(c) Urge that §§ 9.321 (d) and 9.331 (d) as proposed be modified by deleting the requirement that, prior to the assignment of the aeronautical mobile frequencies to aircraft radio stations, a showing is made that agreements have been made with the licensees of the appropriate ground stations.

The CAA indicated that the modification was requested in order to encourage aircraft operators to equip and use as many of the frequencies specified in international agreed aeronautical mobile service plans as possible in the interest of maximum safety in air navigation and

traffic control.

The sole purpose of this rule making proceeding has been to implement the EARC Agreement in certain respects in order to make available and to encourage the use of domestic and international frequencies. The requirement of §§ 9.321 (d) and 9.331 (d) that aircraft radio station licensees make a showing that they have an agreement with the licensees of the appropriate (i. e. under the jurisdiction of the FCC) ground stations has been in effect since July 1953. Accordingly, this requirement has not been placed in issue in this proceeding and the rule change requested by the CAA goes beyond its scope.

6. In view of the foregoing and pursuant to the authority contained in sections 303 (c) (f) and (r) of the Communications Act, as amended, and the Agreement concluded at the Extraordinary Administrative Radio Conference (Geneva 1951) it is ordered that effective September 15, 1955, Part 9 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Adopted: July 27, 1955. Released: July 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION, MARY JANE MORRIS,

Secretary.

1. Section 9.321 (d) is amended to read as follows:

- (d) The aeronautical frequencies listed under §§ 9.432 through 9.440 are also available to air carrier aircraft upon showing that agreements have been made with the licensee of appropriate ground stations.
- 2. Section 9.331 (d) is amended to read as follows:
- (d) The aeronautical frequencies listed under §§ 9:432 through 9.440 are also available to private aircraft upon showing that a need exists and that agreements have been made with the licensee of appropriate ground stations,
- 3. Designate the first paragraph of § 9.432 as paragraph (a).
- 4. Delete present § 9.432 (a), (a) (1) (i) through (vii), (b), (b) (1) through (6) and substitute the following:
- (b) Frequencies in the bands allocated to the aeronautical mobile (R) service in accordance with the provisions

<sup>&</sup>lt;sup>1</sup> Commissioners McConnaughey, Chairman, and Hyde not participating: Commissioner Mack abstaining from voting.

of the Extraordinary Administrative Radio Conference (Geneva 1951)

(c) Frequencies allocated to the aeronautical mobile (R) service in addition to those listed in § § 9.433 through 9.439 may be assigned upon the showing that a need exists, and that such use would not result in harmful interference to other stations operating in accordance with the provisions of the EARC Agreement (Geneva, 1951)

(d) Applications for the use of frequencies allocated to the aeronautical mobile (R) service, not in accordance with §§ 9.433 through 9.439, shall be accompanied by a showing that a need exists and that such use would not result in harmful interference to other stations operating in accordance with the EARC Agreement (Geneva 1951)

(e) Frequencies in the band 126.8-132.0 Mc. Although present channel spacing is 200 kc, additional intermediate frequencies at 100 or 50 kc spacing may be authorized upon a showing that harmful interference will not be caused to aeronautical enroute stations operating on VHF frequencies listed in §§ 9.433 through 9.436 and § 9.440.

5. Sections 9.433 and 9.435-9.440 are added to read as follows:

PART 14—PUBLIC FIXED STATIONS AND STATIONS OF THE MARITIME SERVICES IN ALASKA

### MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 14 of the Commission's rules to make frequencies for telegraphy in the band 2035–2107 kc available without restrictions to ship and coast stations in the Alaska area; amendment of Part 14 with respect to facilities of public coast stations in Alaska for operation on 2182 kc; amendment of Part 14 to allow ship stations in Alaska to use certain frequencies until May 1, 1957; Rules Amdt. 14–1.

At a session of the Federal Communcations Commission held at its offices in Washington, D. C., on the 27th day of July 1955;

The Commission having under consideration the above-captioned matters;

It appearing that part 14 of the Commission's rules presently provides that frequencies in the ship telegraph band 2065–2107 kc and the coast station telegraph frequency 2052.5 kc are available for assignment to ship and coast stations, respectively, in the Alaska area on a "day only" basis, subject to the condition that harmful interference will not be caused to stations which, in the dis-

cretion of the Commission, may have priority on the frequency used by the station to which interference is caused; and

It further appearing that the frequency band 2035–2107 kc has been cleared to permit full time use in accordance with the Table of Frequency Allocations contained in the International Radio Regulations (Atlantic City, 1947) and no harmful interference is expected to be caused to other stations by the full time use of the frequencies and, for these reasons, the "day only" and non-interference conditions may now be deleted from Part 14 of the rules as they have heretofore been deleted in previous proceedings from the rules in Parts 7 and 8; and

It further appearing that it is desirable to bring about uniformity between the Commission's rules in Part 14 and Part 7 with respect to the provisions relating to the antenna power to be used by coast stations on the frequency 2182 kc, particularly so as to provide in Part 14, as is already provided in Part 7, that antenna power on 2182 kc need not be more than 100 watts; and

It further appearing that, with respect to coast stations in Alaska, provision has been made in Part 14 to permit such stations temporarily to continue to transmit on certain frequencies for a period not to extend beyond May 1, 1957, and that to implement this provision, the same interim period should be provided the ship stations which communicate with such coast stations; and

cate with such coast stations; and
It further appearing that the amendments herein ordered are of minor effect,
are editorial in nature or that their substance has heretofore been the subject of proposed rule making proceedings and, therefore, compliance with the public notice and rule making procedures prescribed by sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary and

It further appearing that the amendments herein ordered relieve existing restrictions or concern editorial changes, and therefore, compliance with section 4 (c) of the Administrative Procedure Act is not required; and

It further appearing that the publicinterest, convenience and necessity will be served by the amendments herein ordered, the authority for which is contained in section 303 (c) (f) and (r) of the Communications Act of 1934, as amended:

It is ordered, That, effective immediately, Part 14 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

1. Section 14.104 is amended to read as follows:

§ 14.104 Coast station facilities for 2182 kc. Each public coast station in the Alaska area licensed to transmit by telephony on any radio-channel within

the band 1600 kc to 3500 kc shall be capable of transmitting and receiving (and shall be licensed to transmit) class A3 emission (modulation by voice frequencies) on the radio-channel of which 2182 kc. is the authorized carrier frequency with antenna power not less than the maximum antenna power which it is capable of using for transmission by telephony on any other authorized radio frequency in this band; except that in any event the required antenna power on 2182 kc need not be more than 100 watts when no modulation is present.

2. Section 14.206 (b) is amended by changing the last sentence of this paragraph to read as follows: "In so far as is practicable when transmitting by means of telegraphy on any of these frequencies above 2000 kc, and subject to designation by the ACS as herein provided, class A1 emission only shall be used; after January 1, 1957, the use of class A2 emission for telegraphy on these frequencies above 2000 kc, under the provisions of § 14.152, is not permissible."

visions of § 14.152, is not permissible."

3. Section 14.255 (b) (2) is amended by deleting the text of the Note following this subparagraph.

4. Section 14.256 is amended by deleting the second sentence of the material following the frequency 2052.5 kc and by deleting the Note at the end of this

5. Section 14.263 (a) is amended by deleting subparagraph (7)

section.

6. Section 14.266 is amended to read as follows:

§ 14.266 Extended interim use of conditional maritime service frequencies. With respect to each assigned frequency authorized by this subpart to be used by certain coast and ship stations until not later than January 1, 1957, coast stations may, if the licensee thereof has made proper application not later than January 1, 1957 for renewal of the respective coast station license, continue to transmit on such frequency for maritime mobile service until the date on which the licensee receives the renewed license. or, pending Commission action on the respective application, until May 1, 1957, whichever date first occurs. Ship stations may so continue until May 1, 1957.

It appearing that there are certain instances in which the public interest, convenience and necessity may be served by authorizing to Alaska public fixed stations, the use of certain frequencies which may be assigned to Federal Gov-

ernment stations; and

It further appearing that the amendment herein ordered has the effect of making applicable to non-Government public fixed stations in Alaska a general frequency allocation policy adopted in an earlier proceeding and set forth in § 2.103 of Part 2, Frequency Allocations and Radio Treaty Matters; general rules and regulations, and elsewhere in the Commission's rules, and therefore it is not necessary to issue a Notice of Proposed Rule Making in order to comply with section 4 (a) of the Administrative Procedure Act: and

It further appearing that the public interest, convenience and necessity will be served by the amendment herein ordered, the authority for which is contained in section 303 (c), (f) and (r) of the Communications Act of 1934, as amended:

It is ordered, That, effective September 1, 1955, Part 14 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Federal Communications Commission,

[SEAL] MARY JANE MORRIS, Secretary.

Section 14.207 is amended to read:

§ 14.207 Use of United States Government frequencies. Frequencies assigned to Federal Government radio stations under Executive order of the President may be authorized for use by Alaska-public fixed stations when such assignment is necessary for inter-communication with Federal Government stations or required for coordination with activities of the Federal Government provided the Commission determines, after consultation with the appropriate Government agency or agencies, that such assignment is in the public interest.

PART 18—INDUSTRIAL, SCIENTIFIC, AND MEDICAL SERVICES

OPERATION OF RADIO FREQUENCY STABILIZED

ARC WELDING

In the matter of amendment of Part 18 of the Commission's rules and regu-

lations concerning the operation of radio frequency stabilized arc welding; Rules Amdt. 18-7.

At a session of the Federal Communcations Commission held at its offices in Washington, D. C., on the 27th day of July 1955:

The Commission having under consideration the petition filed by the Joint Industry Committee on High Frequency Stabilized Arc Welders, which requests that the Commission adopt permanent rules and regulations applicable to radio frequency stabilized arc welding equipment on a more permanent basis than presently provided, but with essentially the same requirements as are set forth in footnote 1 to § 18.1 of the Commission's rules.

It appearing that footnote 1 to section 18.1 of the Commission's rules now provides that Part 18 of the rules shall not apply until July 31, 1955, to the operation of electric arc welding devices using radio frequency energy, except that such devices manufactured after September 1,

1952, are generally subject to the same technical limitations and standards as are provided for the operation of industrial heating equipment; and

It further appearing that additional information is required by the Commission before promulgating permanent rules for the operation of electric arc welding equipment, and that the Commission has today adopted a Notice of Proposed Rule Making with respect to this question which is designed to elicit the information necessary to formulate permanent rules for the operation of this equipment; and

It further appearing that the public interest would be served by extending the existing provisions of footnote 1 to § 13.1 of the rules pending the outcome of the above mentioned rule making proceedings; and

It further appearing that compliance with the provisions of section 4 (a) of the Administrative Procedure Act would be impracticable in view of the imminence of the date now specified for compliance with the normal requirements of the rule and that, since this amendment relieves a restriction, it may be made effective immediately.

It is ordered, That, pursuant to the authority of sections 4 (1) 301 and 303 (r) of the Communications Act of 1934, as amended, that footnote 1 to § 12.1 be amended to provide that the effective date for the applicability of Part 18 of the rules to arc welding equipment using radio frequency energy be extended from July 31, 1955, until April 30, 1956.

(Sec. 4, 48 Stat. 1063 as amended; 47 U. S. C. 164. Interprets or applies secs. 301, 303; 43 Stat. 1031, 1032; 47 U. S. C. 301, 303)

I 7 CFR Part 958 1

IRISH POTATOES GROWN IN COLORADO

NOTICE OF PROPOSED EXPENSES AND RATE OF

Notice is hereby given that the Secretary of Agriculture is considering the approval of the expenses and rate of assessment hereinafter set forth, which were recommended by the area committee for Area No. 3, established pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958; 19 F R. 9368) regulating the handling of Irish potatoes grown in the State of Colorado, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the Federal Register. The proposals are as follows:

§ 958.219 Expenses and rate of assessment. (a) The reasonable expenses that are likely to be mourred by the area committee for Area No. 3, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to perform its functions pursuant to the provisions of aforesaid marketing agreement and order, during the fiscal period ending May 31, 1956, will amount to \$2,660.

(b) The rate of assessment to be paid by each handler, pursuant to Marketing Agreement No. 97 and Order No. 58, shall

be \$0.00095 per hundredweight of potatoes handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58.

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

- 1. Notice is hereby given of further proposed rule making in the above entitled matter.
- 2. It is proposed to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations in the following manner:

General area	Channel		
General mea	Deleto	Add	
Philadelphia, Pa	279		

3. The purpose of the proposed amendment is to make possible the assignment of Channel No. 280 for a new Class A FM broadcast station in Princeton, New Jer-

sey. Operation of a station on Channel No. 280 in Princeton and a station on Channel No. 279 in Philadelphia would result in prohibitive interference, consequently, it is proposed to delete Channel No. 279 from the Philadelphia allocations.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i) 301, 303 (c) (d) (f) and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein. may file with the Commission on or before August 26, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed before or on the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's Rules and Regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: July 27, 1955.

LAND TRANSPORTATION RADIO SERVICES

### RELAY STATIONS

In the matter of amendment of \$16.355 (b) (2) of Part 16 of the Commission's Rules Governing Land Transportation Radio Services; Docket No. 11466.

- 1. Notice is hereby given of proposed rule making in the above-entitled matter.
- 2. The assignment of frequencies to mobile relay stations in the Railroad Radio Service for use in connection with railroad mainline (point-to-train) operations is governed by the policy announced by the Commission in the Second Report and Order in Docket 9898 issued September 29, 1952. This policy provides that only the two mobile service frequencies available to a particular railroad for its mainline operations may be assigned to mobile relay stations, on

a developmental basis, for use in rail-road mainline operations. Petitions filed by Southern Pacific Company and the Association of American Railroads point out that under certain conditions, such as mountainous terrain, severe winter weather, etc., no satisfactory mobile relay operation may be conducted on the two assigned frequencies, and request relief from this limitation. Also the petition of the Association of American Railroads requests that the developmental status be removed from such operations.

- 3. It is believed that the above petitions warrant the institution of a rule making proceeding looking toward modification of the policy announced in the Second Report and Order in Docket 9898 to enable the Commission, in appropriate cases, to make exceptions thereto. Accordingly, it is proposed to amend \$16.355 (b) (2) of the Commission's rules to read as follows:
- (2) A mobile relay station will be authorized to operate only on the frequencies assigned to a particular railroad for its mainline (point-to-train) operations; Provided, however, That the Commission may authorize the use of additional frequency or frequencies allocated to the Railroad Radio Service when it is shown that: (i) mobile relay operations cannot be satisfactorily conducted on the frequencies assigned to mainline operations. (ii) the additional frequency or frequencies will be used only in areas where, due to terrain or weather, hazardous railroad operating conditions prevail and no other satisfactory communication facilities exist or are practical to conduct or maintain to the point where mobile relay stations are proposed to be established, and (iii) no harmful interference will result to other stations in the Railroad Radio Service.
- 4. Authority for this proposed amendment is contained in sections 4 (i) 303 (b), (c) and (r) of the Communications Act of 1934, as amended.
- 5. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before August 22, 1955, written data, views or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within 10 days from the last day for filing the said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.
- 6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations an original and 14 copies of

all statements, briefs or comments filed shall be furnished the Commission.

Adopted: July 27, 1955. Released: July 29, 1955.

### [ 47 CFR Part 18 1

[Docket No. 11467; FCC 55-8351

GOVERNING RADIO FREQUENCY STABILIZED ARC WELDERS

### NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has this date extended the applicability of footnote 1 of \$18.1 of its rules from July 31, 1955, to April 30, 1956. This footnote, which applies to the operation of high frequency stabilized arc welding equipment, has previously been extended several times. A petition of the Joint Industry Committee on High Frequency Stabilized Arc Welders requests that, in effect, the present footnote be incorporated into the rules without limitation as to date. Additional information is required, however, before the Commission promulgates any permanent rules for the operation of such arc welding equipment.

3. Many of the installations of radio frequency stabilized arc welders are in the vicinity of airports where they are used for airplane maintenance and manufacture. As a result, the Commission is concerned about the possibility of interference from these welders to the proper functioning of radio equipment on aircraft or at ground installations. Such interference could be a direct or mdirect cause of loss of life. The welding industry has been very cooperative in clearing up cases of interference, but the Commission wishes to ascertain from persons in the aviation industry as well as from other interested parties, the extent to which the operation of radio frequency stabilized arc welders is a cause of interference to their radio operations.

4. The Commission proposes to promulgate rules governing the operation of Radio Frequency Stabilized Arc Welders, and desires comments from interested parties, including information concerning the following questions:

(a) Are there any satisfactory alternative methods of performing the welding operations without the use of radio

frequency energy?

(b) Are there methods, other than those presently employed, of using radio frequency energy in conjunction with stabilized arc welders which will perform the required welding function and yet reduce the radiation from the welding equipment?

(c) On what radio frequencies can radio frequency stabilized are welders

function properly, and to what extent can these frequencies be changed in order to minimize interference problems?

(d) Is the reduced duty cycle approach practical in terms of welding efficiencv9

(e) Can the spark-gap type of radio frequency stabilized arc welder be constructed with a radio frequency filter so as to limit its interfering electromagnetic radiation to a smaller portion of the radio spectrum and yet perform satisfactorily as a welding device?

 (f) If harmonics are adequately filtered from the radio frequency source, are they again generated to an appreciable extent in the welding arc?

(g) Can tests of radiation from welding equipment be made at the time of manufacture which will show accurately the amount of radiation which will result when the equipment is installed?

(h) What is the extent of radiation which can be expected from present and future designs of high frequency stabilized arc welding equipment?

(i) What interference has been experienced by the various radio services from the use of radio frequency stabilized arc welders?

(j) What signal level is the maximum that can be tolerated at a specified distance from a radio frequency stabilized arc welder?

(k) Is the interference most objectionable during the welding process or when the equipment is merely turned on and the welding process is not actually being conducted?

(1) Does the reduced duty cycle approach reduce interfering potentialities of arc welding equipment when: (1) Low quality broadcast receivers are used, (2) High quality broadcast receivers are used, and (3) Standard receiving equipment is used for other than broadcast frequencies?

(m) What is an appropriate measurement procedure for this type of interfering signal?

(n) What method of implementation shall be used for any rules that may be adopted?

(o) What other factors should be considered in arriving at an equitable solu-

tion to this problem? 5. The Commission also proposes to amend its rules to require that high frequency stabilized arc welders manufactured prior to September 1, 1952, be certificated on the basis of field strength measurements made at the point of use in order to give some assurance that interference will not be caused.

6. Comments are desired from all interested parties including the Joint Industry Committee on High Frequency Stabilized Arc Welders, the Joint Technical Advisory Committee, the Aviation industry, users and manufacturers of broadcast receivers, the Marine industry, and any others who either use arc welders or suffer interference from high frequency stabilized arc welders. Any interested party may file comments in this matter on or before November 1, 1955. Replies to any comments filed may be filed within ten days from the last day for filing original comments. The Commission will consider all such comments and briefs that are presented before taking final action.

7. This proposal to amend the Commission's Rules is issued under the authority of sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as

amended.

8. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: July 27, 1955.

Released: July 29, 1955.

JULY 28, 1955.

Pursuant to Determination DA-364, Colorado, of the Federal Power Commission and in accordance with Order No. 541, Section 2.5, of the Director, Bureau of Land Management, approved April 21, 1954 (19 F R. 2473), it is ordered as follows:

The lands hereinafter described, so far as they are reserved for power purposes, are hereby restored to disposition under the public land laws, subject to provisions of Section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S. C. 818) as amended:

NEW MEXICO PRINCIPAL MERIDIAN, COLORADO T. 49 N., R. 9 E.,

Sec. 14: W½NW¼, Sec. 15: N½NE¼NE¼, SW¼NE¼NE¼.

The area described totals 110 acres of public lands.

The land is located along the Arkansas River about two miles downstream from the town of Salida, Colorado. The tract. is rocky and very steep, with a scattered. stand of pinon trees, sage brush and some weeds and grass.

No application for these lands will be allowed under the homestead, desertland, small tract, or any other non-min-eral public-land law, unless the lands have already been classified as valuable or suitable for such type of application. or shall be so classified upon consideration of an application. Any application

that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Any disposition of the lands described herein shall be subject to the stipulation that if and when the land is required in whole or in part for power development purposes, any structures or improve-ments placed thereon which may be found to obstruct or interfere with such development, shall without cost, expense, or delay to the United States, its licensees or permittees, be removed or relocated insofar as may be necessary to eliminate interference with such power development.

The lands described shall be subject to application by the State of Colorado for a period of 90 days from the date of publication of this order in the Federal Reg-ISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended, and the special stipulation provided in the preceding paragraph.

This order shall not otherwise become effective to change the status of such land until 10:00 a.m. on the 35th day after the date of this order. At that time the said land shall become subject, to application, petition, location and selection under the applicable publicland laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747 43 U. NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JULY 25, 1955.

A plat of survey of the lands described below, accepted August 11, 1954, will be officially filed in Eastern States Office, Bureau of Land Management, Washington 25, D. C., effective at 10:00 a. m. on August 26, 1955:

MICHIGAN MERIDIAN, MICHIGAN

T. 34 N., R. 7 E., Sec. 23:

Lot 8, containing 0.17 acre (Indian Island);

Lot 9, containing 0.04 acre (Allen Island). Sec. 24:

Lot 8, containing 1.23 acres;

Lot 9, containing 0.10 acre. Sec. 26:

Lot 3, containing 5.22 acres; Lot 4, containing 0.29 acre (Bear Island). T. 26 N., R. 10 W.,

Lot 16, containing 1.07 acres; Lot 17, containing 0.41 acre. T. 27 N., R. 10 W.,

Sec. 35: Lot 4, containing 1.37 acres.

The above-mentioned lot 3, sec. 26, T. 34 N., R. 7 E., containing 5.22 acres, shown as surveyed on the plat approved August 3, 1857, is designated as such in order to furnish a legal description thereof.

The plats represent the survey of certain islands in Black Bass Bay, Grand Lake and Spider Lake which were not included in the original surveys of the townships as represented by the plats approved August 3, 1857, November 4, 1853, and December 23, 1852, respectively.

Available information indicates that the islands in T. 34 N., R. 7 E., are of limestone and sand formation, averaging in elevation from 3 to 6 feet, and are well covered with typical northern timber of cedar, birch, basswood and pine; that the islands in Ts. 26 and 27 N. R. 10 W., are of a sandy black loam formation; ranging in elevation from 14 to 25 feet, well covered with northern species of timber of cedar, birch and pine.

No applications for these lots may be allowed under the homestead or small tract or any other nonmineral public land laws unless the land has been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour specified on the abovementioned effective date, the said land shall become subject to application, petition, location or selection, under applicable laws, subject to valid existing rights, the provisions of existing withdrawals and the 91-day preference right filing period for veterans and others entitled to preference under the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Supervisor, Eastern States Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

[File No. 70-3389]

American Natural Gas Co. and American Louisiana Pipe Line Co.

ORDER APPROVING APPLICATIONS AND PER-MITTING DECLARATION TO BECOME EFFEC-TIVE REGARDING ISSUE AND SALE BY PARENT OF COMMON STOCK AND ISSUE AND SALE BY SUBSIDIARY OF COMMON STOCK AND BONDS

JULY 29, 1955.

American Natural Gas Company ("American Natural") a registered holding company, and its interstate natural gas pipe line subsidiary, American Louisiana Pipe Line Company ("American Louisiana") having filed with this Commission applications and a declaration, pursuant to sections 6 (a) 6 (b) 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules, U-43 and U-50 thereunder, concerning the following proposed transactions, all of which are more fully described in the applications and declaration:

(1) The issue and sale by American Natural of 736.856 additional shares of its authorized but unissued shares of \$25 par value common stock, pursuant to an underwritten rights offering to its common stockholders, on the basis of one share of such additional stock for each five shares held, the offering price of such shares to be determined subsequently and filed by amendment; the issuance of transferable subscription warrants to holders of outstanding common stock for the purpose of effectuating such offering of new common stock; and, in connection with such common stock offering, the acquisition and sale of common stock in such stabilizing transactions as may be deemed necessary by the company, but not in excess of 10 percent of the new shares of common stock to be issued. The unsubscribed shares will be offered for sale to underwriters by American Natural with the price per share to American Natural to be the same as the subscription price. The prospective purchasers will submit bids. pursuant to Rule U-50, stating the aggregate amount to be paid by American Natural as compensation to the successful bidders for purchasing the unsubscribed shares.

(2) The issue and sale by American Louisiana of 200,000 shares of its authorized but unissued common stock, of \$100 par value per share, for an aggregate amount of \$20,000,000, and the acquisition by American Natural of such shares from American Louisiana.

(3) The issue and sale by American Louisiana of its First Mortgage Pipe Line Bonds 4½ percent Series, in the principal amount of \$97,500,000, due not later than January 1, 1977, in accordance with Bond Purchase Agreements, as amended, entered into with the Metropolitan Life Insurance Company and The Mutual Life Insurance Company of New York, such bonds to be issued from time to time as funds are required by American Louisiana.

The Commission having previously, by Notice of Filing and Order for Hearing issued June 22, 1955, directed that a public hearing be held upon such applications and declaration and that public notice be given thereof; and

A public hearing having been held at which appearances were entered by the applicants-declarant and by the Attorney General of Wisconsin, the Corporation Counsel of the City of Detroit, Michigan, the Michigan Public Service Commission; and various other interested persons or participants, and all interested persons having been afforded full opportunity to be heard at such public hearing; all parties and participants having waived the filing of requested findings and briefs and the preparation of a report or recommended decision by the hearing officer or other responsible officer of the Commission; and the Commission having heard oral argument at which all interested persons were afforded an opportunity to be heard; and

The Commission having considered the record and the views and contentions of all interested persons, and the Commission finding that all statutory requirements with respect to the proposed transactions, including the issuance and sale of securities and the acquisitions thereof, have been fully met, and that such proposed transactions satisfy all applicable provisions of the Act and the Rules promulgated thereunder, and deeming it appropriate in the public interest and the interest of investors and consumers that such applications and declaration be granted and permitted to become effective forthwith, including the application for an exception from competitive bidding for the sale of such First Mortgage Pipe Line Bonds from the provisions of Rule U-50, subject only to the conditions hereinafter set forth. and that an appropriate order should be entered, as hereinafter ordered; and

The Commission having under preparation its formal Findings and Opinion herein, setting forth its specific findings with respect to the proposed transactions, including reasons for the Commission's decision, and the Commission finding that in view of the circumstances here present it is in the public interest and in the interest of investors and consumers that this order be issued forthwith without awaiting publication of such formal Findings and Opinion.

It is hereby ordered, Subject to the terms and conditions contained in Rule U-24, and subject to the reservation of jurisdiction over fees and expenses as hereinafter set forth that:

(1) The application-declaration of American Natural with respect to the sale of its common stock, pursuant to an underwritten rights offering to its stockholders, including the issuance of warrants to such stockholders and the proposed stabilization, be and is granted and permitted to become effective forthwith, subject to the provisions of Rule U-50, provided however that such sale of common stock shall not be made until after the entry of a further order of the Commission issued after the filing of the subscription price, pursuant to the

reservation of jurisdiction hereinafter B. Maximum cost and financing: set forth.

- (2) The application of American Louisiana for exemption of the proposed issuance and sale of its common stock, and the application of American Natural to acquire such common stock, be and the same are hereby granted, effective forthwith.
- (3) The application of American Louisiana for exemption of the issue and sale of its First Mortgage Pipe Line Bonds, and for an exception from the competitive bidding requirements of Rule U-50 as to such sale, be and is hereby granted, effective forthwith.

It is further ordered, That jurisdiction be and is hereby reserved:

- (a) To consider further the sale of common stock by American Natural after the filing of an appropriate amendment setting forth the subscription price for such shares, at which time the Commission may impose such further terms and conditions as may then appear appropriate; and
- (b) To pass upon all fees and expenses, other than underwriters' compensation with respect to the issue and sale of the common stock of American Natural, incurred in connection with the proposed transactions.

By the Commission.

FEDERAL OFFICE BUILDING

PROSPECTUS FOR PROPOSED BUILDING IN SOUTHWESTERN PORTION OF THE DIS-TRICT OF COLUMBIA

EDITORIAL NOTE: This prospectus of proposed Project Number 3-DC-01 is published pursuant to section 412 (f) of the Public Buildings Purchase Contract Act of 1954, as amended by Public Law 150, 84th Congress, which requires publication in the FEDERAL REGISTER for a period of ten consecutive days from date of submission to the Committees on Public Works of the Senate and House of Representatives.

Project Number 3-DC-01

PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I, PUBLIC LAW 519, 83D CONGRESS, 2D

FEDERAL OFFICE BUILDING, WASHINGTON, D. C.

A. Brief description of proposed building: The project contemplates the erection of a Federal Office Building on a site to be acquired in the Southwest redevelopment area.

The proposed building will be a six-story and penthouse structure, stone exterior, with cafeteria included, and air conditioned throughout. It will have a gross floor area of 815,000 square feet, that will provide 558,000 square feet of net space, of which 500,000 square feet will be office area, 10,000 square feet for shops, 34,000 square feet for cafeteria, and 14,000 square feet for custodial, health unit, etc.

Existing Tempo's 4, 5 and T     (or comparable space), to     be supplanted by proposed building	500, E22	ಕಾ.ಣ	\$425,700

- E. Justification of project:

  1. Lack of Suitable Space:

  a. The needs for space for the permanent activities of the Federal Government cannot be satisfied by utilization of existing Government-owned space.

b. Suitable rental space of comparable cort and characteristics is not available at a price commensurate with that to be afforded

through the contract proposed.
c. The space requested and proposed is needed for permanent activities of the Federal Government.

d. The best interest of the Government will be served by taking the action proposed.

2. Existing Conditions:

During the past several years there has been an active and widespread movement on the part of the public and Governmental agencies, notably the Commission of Fine Arts, concerning the removal of World War I and II Tempos and the restoration of the park lands.

Data compiled as of December 31, 1954, indicates that the Federal Government is indicates that the Federal Government is currently utilizing four (4) World War I Tempo's, providing 2,083,903 equare feet of net agency space, with 16,506 perconnel; and 35 World War II Tempo's, providing 3,585,063 square feet, with 22,823 perconnel. In summary, 39 Tempo's, providing a total of 5,668,—968 square feet of pet agency space, with 966 square feet of net agency space, with aggregate personnel of 39,329. The aforementioned figures do not include space or personnel of the Central Intelligence Agency.

The Congress, long sympathetic to the insistent demand for the razing of the Tempo's has considered several proposed bills to accomplish this purpose. Among these was S 1290, passed in the Senate on June 8, 1955, and enacted as Public Law 150, 84th Congress, approved July 12, 1955. That law exprecely manifests the intent of Congress that (1) provision of accommodations for executive agencies by GSA as a part of the program for redevelopment of the southwest portion of the District of Columbia be accomplished on a lease-purchase basis and (2) temporary space of equivalent occupancy be demolished.

The proposed building will provide approximately 500,000 cquare feet of net office space, to accommodate equivalent personnel dispossessed from temporary buildings contemplated for initial demolition under current long-range planning programs.
3. Direct and Indirect Benefits Expected to

- Accrue.
- a. Agencies whose related operations are ccattered among two or more locations will be able to concentrate all of them in a single location and thereby realize appreciable economles deriving from such factors as contiguity of operating elements, immediate accessibility of employees and records, and elimination of transportation and communication delays.
- b. The accommodation of Federal agencies in a single building will provide flexibility in making internal reassignments of agency space where increases or decreases in requirements occur.
- c. The proposed building will be functional in concept and devoid of excessive embellichment and extravagant appointments. The design of the building and facilities will provide for the utmost economy in construction; maintenance and operation costs considered. It will be provided with modern fittings, appointments and conveniences comparable to those provided in buildings of private enterprise. Maintenance and improvement of employee morale and the conover a period of years may thus be confidently expected to result in intangible though nonetheless real economies.

5606 **NOTICES** 

F. Analysis of project space:

1. Since this project is intended to provide for relocation of numerous Federal activities now housed in temporary buildings, no specific allocation of space among agencies can be made. Therefore requirement for Certificate of Need otherwise required by Section 411 (e) of the Public Buildings Purchase Contract Act of 1954 was waived in Public Law 150, 84th Congress.

EXECUTIVE OFFICE OF THE PRESIDENT BUREAU OF THE BUDGET

WASHINGTON, D. C.

Project 3-DC-01 Federal Office Building, Southwest Redevelopment Area, Washington, D. C.

MY DEAR MR. MANSURE:

MY DEAR MR. MANSURE:
Pursuant to section 411 (e) (8) of the
Public Buildings Purchase Contract Act of
1954 (Public Law 519), the proposal for a
Federal Office Building, transmitted with
your-letter of June 28, 1955, has been examined and in my opinion "is necessary and
in conformity with the policy of the President." This approval is given with the following understandings: lowing understandings:

JULY 22, 1955.

1. That the project cost of \$20,200,000 (including \$2,500,000 for land to be acquired) is a maximum figure.

2. That the reported annual operating cost of existing Tempos 4, 5 and T, i. e., 99¢ per sq. ft., represents minimum maintenance in anticipation of demolition, and that temporary Government buildings actually cost more to maintain than the proposed new building.

3. That the proposed building will house some 10 percent of Federal employes presently housed in temporary buildings, and that the specific allocation of agencies in the proposed building is to be determined later by GSA.

4. That every effort will be made to design and construct space conducive to maximum efficient utilization and to take advantage of any revision of cost downward which may be found possible as the plans develop and

regotiations are advanced.

You appreciate, of course, that this project will receive a more detailed review as a course to appreciate the course to appreciate the course to a superson the course of cost and space utilization prior to approval of the lease-purchase agreement. Sincerely yours,

[Signed] ROWLAND HUGHES, Director.

ORDER DESIGNATING APPLICATION FOR CON-SOLIDATED HEARING ON STATED ISSUES

In re applications of Rollins Broadcasting, Inc., Indianapolis, Indiana, Docket No. 11469, File No. BP-9414; Jules J. Paglin and Stanley W Ray, Jr., d/b as OK Broadcasting Company, Indianapolis, Indiana, Docket No. 11470, File No. BP-9473; Charles N. Cutler and Earl T. Herzog, d/b as Wireless Broadcasters, Franklin, Indiana, Docket No. 11471, File No. BP-9494; Wabash-Peru Broadcasting Company, Inc., (WARU), Peru, Indiana, Docket No. 11472, File No. BP-9731, Twin Valley Broadcasters, Inc. (WTVB), Coldwater, Michigan, Docket No. 11473, File No. BP-9732; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day

of July 1955;

The Commission having under consideration the above-entitled applications for construction permits of Rollins Broadcasting, Inc., for a new standard broadcast station to operate on 1590 kilocycles with a power of 5 kilowatts, directional antenna, daytime only, at Indianapolis; of Jules J. Paglin and Stanley W Ray, Jr., a partnership d/b as OK Broadcasting Company, for a new standard broadcast station to operate on 1590 kilocycles with a power of 5 kilowatts, directional antenna, daytime only, at Indianapolis, Indiana; of Charles N. Cutler and Earl T. Herzog, a partnership d/b as Wireless Broadcasters, for a new standard broadcast station to operate on 1590 kilocycles with a power of 500 watts, daytime only, at Franklin, Indiana; of Wabash-Peru Broadcasting Company, Inc., to increase the power of Station WARU, Peru, Indiana, from 500 watts to 1 kilowatt on 1600 kilocycles, daytime only and of Twin Valley Broadcasters, Inc., to change facilities of Station WTVB, Coldwater, Michigan, from operation with a different directional antenna pattern day and night to operation with a directional antenna nighttime only on 1590 kilocycles with a power of 5 kilowatts to local sunset and 500 watts nights, unlimited time; and a request filed on July 6, 1955, by Wabash-Peru Broadcasting Company, Inc., for a

twenty day extension of time from July 7, 1955, in which to further reply to the Commission's letter of June 7, 1955, by the filing of additional engineering data, a request joined in by Twin Valley Broadcasters, Inc., and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, but that the applications of Rollins Broadcasting, Inc., OK Broadcasting Company and Wireless Broadcasters are mutually exclusive; that the application of Twin Valley Broadcasters, Inc., involves mutual interference with the proposal of Rollins Broadcasting, Inc., and would cause interference to the proposal of OK Broadcasting Company and to Station WDOG, Marine City, Michigan, (1590 kc, 1 kw, DA, Day) and that the application of Wabash-Peru Broadcasting Company, Inc., involves mutual interference with the operations proposed by Rollins Broadcasting, Inc., and the OK Broadcasting Company and with Station WBLY, Springfield, Ohio, (1600 kc. 1 kw, Day) and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated June 7, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of the subject applications would be in

the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that in a letter dated July 1, 1955, Station WDOG requested that the application of Twin Valley Broadcasters, Inc., be designated for hearing and that WDOG be made a

party to the proceeding; and

It further appearing that each of the applications of Rollins Broadcasting, Inc., OK Broadcasting Company and Wireless Broadcasters is contingent upon Station WXLW, Indianapolis, Indiana, changing frequency from 1590 kilocycles to 950 kilocycles, pursuant to a construction permit granted on July 14, 1954; that the proposal of Twin Valley Broadcasters, Inc., would cause interference to the operation of WXLW on 1590 kilocycles: and that a grant of any of the said applications should include the condition that program tests shall not commence until operation on 950 kilocycles is begun by WXLW and that a license to cover construction permit by any of the said applicants shall not be issued until a license has been issued to WXLW for operation on 950 kilocycles; and

It further appearing that in the above-described letter dated July 6, 1955, Wabash Peru Broadcasting Company, Inc., requested a twenty day extension of time from July 7, 1955, for it to make field intensity measurements to submit to the Commission (This request was joined in by Twin Valley Broadcasters, Inc.) that in a letter dated July 7, 1955, OK Broadcasting Company opposed an extension on the grounds that Wabash-Peru has had ample time to make measurements and that the applications should be immediately designated for hearing; and that it would be expeditious to deny the requests for extension of time since section 1.365 of the Commission's Rules provides that after an application has been designated for hearing, petition for leave to amend may be filed; and

It further appearing that the Commission, after consideration of the replies to its letter of June 7, 1955, is of the opinion that a hearing is necessary.

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations of the above-entitled applicants, and the availability of other primary service

to such areas and populations.

2. To determine whether the operation proposed by Station WTVB involves mutual interference with the opera-tion proposed by Rollins Broadcasting, Inc., and would cause interference to the operation proposed by the OK Broadcasting Company and to Station WDOG. Marine City, Michigan, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the operation proposed by Station WARU involves mutual interference with the operations proposed by Rollins Broadcasting, Inc., and the OK Broadcasting Company and with Station WBLY, Springfield, Ohio, and, if so, the nature and extent thereof. the areas and populations affected thereby and the availability of other primary service to such areas and populations.

- 4. To determine whether a grant of the application of Rollins Broadcasting. Inc., or OK Broadcasting Company would be in contravention of the provisions of section 3.35 (Multiple Ownership Rule) of the Commission's Rules in light of the other broadcast interests of the parties to those respective applications.
- 5. To determine in light of section 307 (b) of the Communications Act of 1934. as amended, which of the operations proposed in the above-entitled applications would best provide a fair, efficient and equitable distribution of radio service.
- 6. To determine which of the operations proposed in the above-entitled applications would best serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:
- (a) The background and experience of each of the above-named applicants to own and operate the stations as proposed.
- (b) The proposals of each of the above-named applicants with respect to the management and operation of the stations as proposed.

(c) The programming service proposed in each of the above-mentioned applications.

7. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

It is further ordered, That a grant of the application of Rollins Broadcasting, Inc., OK Broadcasting Company Twin Valley Broadcasters, Inc., or Wireless Broadcasters shall include the condition that program tests shall not commence until operation on 950 kilocycles is begun by Station WXLW Indian-. apolis, Indiana, and that a license to cover construction permit shall not issue until a license has been issued to WXLW for operation on 950 kilocycles;

It is further ordered, That Radio St. Clair, Inc., and Champion City Broadcasting Company, licensees of Stations WDOG, Marine City, Michigan, and WBLY, Springfield, Ohio, respectively, are made parties to the proceeding;

It is further ordered. That the abovedescribed request by Broadcasting Company Wabash-Peru Inc., for a twenty day extension of time from July 7. 1955, in which to further answer the Commission's letter of June 7, 1955, by filing additional engineering data, joined in by Twin Valley Broadcasters, Inc., is

Released: July 29, 1955.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of July 1955:

The Commission having under consideration the above-entitled applications of Northern Indiana Broadcasters, Incorporated for a construction permit for a new standard broadcast station to operate on 1240 kilocycles with a power of 250 watts, unlimited time, at South Bend, Indiana; and the St. Joseph Valley Broadcasting Corporation to change the facilities of Station WJVA from operation on 1580 kilocycles with a power of 250 watts, daytime only, at South Bend, Indiana, to operation on 1240 kilocycles with a power of 250 watts, unlimited time, at Mishawaka, Indiana; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below. to operate its station as proposed, but that operation of both stations as proposed would result in mutually destructive interference; that each of the proposals would cause interference to Station WHBU, Anderson, Indiana (1240 kc. 250 w, Unl.) and that neither proposal would provide adequate primary service nighttime to the city sought to be served; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated March 2, and June 6, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that timely replies were received from both applicants and Station WHBU expressing an intention to appear at a hearing on the above-

entitled applications; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

- 1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.
- 2. To determine whether each of the proposed operations would involve objectionable interference with Station WHBU, Anderson, Indiana; or any other existing station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether each of the proposed operations would provide adequate primary service nighttime to the

city sought to be served.

- 4. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of the proposed operations would better provide a fair, efficient and equitable distribution of radio service.
- 5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

It is further ordered, That the Anderson Broadcasting Corporation, licensee of Station WHBU, Anderson, Indiana, is made a party to the proceeding.

Released: July 29, 1955.

TROY BROADCASTING CORP. (WTBF)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Troy Broadcasting Corporation (WTBF) Troy, Alabama, Docket No. 11476, File No. BP-9696; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of July 1955;

The Commission having under consideration the above-entitled application of the Troy Broadcasting Corporation for a construction permit to change the facilities of Station WTBF Troy, Alabama, from operation on 1490 kilocycles with a power of 250 watts, unlimited time, to operation on 970 kilocycles with a power of 5 kilowatts day and 500 watts night, directional antenna, unlimited time;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues below, to operate Station WTBF as proposed, but that the application may involve interference with Station WRMA, Montgomery, Alabama; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated May 19, 1955, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would serve the public interest; and

It further appearing that a timely reply was filed by the applicant in which it contended that on the basis of field intensity measurements made on selected radials no interference would be caused to Station WRMA; but that insufficient measurements were made to establish that the said interference would not result; and

It further appearing that in a letter dated April 22, 1955, Station WRMA opposed a grant of this application on

the grounds of the above-described interference and requested that WRMA be made a party to a hearing on the application; and

It further appearing that the proposed transmitter type is approved for five and one kilowatt operation only, and in the event of a grant of this application measurements should be submitted by the applicant to prove compliance with section 3.47 of the Commission's Rules for the nighttime 500 watt operation; and

It further appearing that the Commission, after consideration of the reply to its letter by the applicant, is of the opinion that a hearing is necessary:

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the operation of Station WTBF as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of Station WTBF as proposed would involve objectionable interference with Station WRMA, Montgomery, Alabama; or any other existing station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

to such areas and populations.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest.

It is further ordered, That the Southland Broadcasting Company, licensee of Station WRMA, Montgomery, Alabama, is made a party to the proceeding.

It is further ordered, That in the event that this application is granted the construction permit shall contain the following condition:

Submission by the permittee of measurements made in accordance with section 3.47 of the Rules to prove compliance with the requirements of section 12 of the Standards.

Released: July 29, 1955.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Radio Station KLLL, Inc. (KLLL) Lubbock, Texas, Docket No. 11477, File No. BP-9750; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of July 1955;

The Commission having under consideration the above-entitled application of Radio Station KLLL, Inc., to increase the power of Station KLLL, Lubbock, Texas, from 500 watts to 1 kilowatt on 1460 kilocycles, daytime only and

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate Station Kill as proposed, but that the application may involve interference with Station KSNY, Snyder, Texas; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated June 6, 1955, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that timely replies to the Commission's letter were filed by the applicant and Station KSNY expressing an intention to appear at a hearing on the above-entitled application; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing on the application is necessary.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the operation of Station KLLL as proposed, and the availability of other primary service to such areas and populations.

2.
